

or without corrective lenses; and distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses; and field of vision of at least 70 degrees in the horizontal meridian in each eye; and the ability to recognize the colors of traffic signals and devices showing standard red, green, and amber. Section 391.41(b)(1) requires that a person have no loss of foot, leg, hand, or arm, or alternatively, be granted a skill performance evaluation (SPE) certificate [previously called a "waiver"] pursuant to section 391.49. The alternative physical qualification standards for the loss or impairment of limbs, at 49 CFR 391.49(d)(3)(i)(B), include a requirement that applicants for SPE certificates include with their application a medical evaluation summary that, " * * * the applicant is capable of demonstrating precision prehension (e.g. manipulating knobs and switches) and power grasp prehension (e.g. holding and maneuvering the steering wheel) with each upper limb separately."

Mr. Parker does not meet the vision requirements because of a congenital eye condition known as Coats disease in his right eye. His ability to see with his right eye is below that which could be measured on the standard Snellen chart. However, he has corrected vision of 20/20 in his left eye. Mr. Parker does not meet the physical qualification requirements for the loss of limbs and he is unable to demonstrate precision prehension (e.g., manipulating knobs and switches) and power grasp prehension (e.g., holding and maneuvering the steering wheel) with each upper limb separately. Under current regulations at 49 CFR 391.41/391.49, Mr. Parker would need to use a prosthetic device in order to demonstrate precision and power grasp prehension. He does not use a prosthetic device to assist in operating CMVs. Mr. Parker's left arm was amputated above the elbow. His right arm has severe scarring and he has had multiple surgeries on this arm as a result of the injuries sustained in the accident that necessitated the amputation of the left arm.

Mr. Parker stated that he has driven safely over 1.2 million miles in a CMV since 1985. He has no accidents and no traffic violations on his driving record.

Request for Comments

In accordance with 49 U.S.C. 31315(b)(4) and 31136(e), FMCSA requests public comment from all interested parties on Mr. Parker's application for an exemption from the Federal standards for vision and for the loss of limbs. Interested persons should

consider each exemption separately, to the greatest extent practicable. FMCSA also requests comments on our plan to assess individual physical impairments separately (only vision and limb). We have not yet made a final decision on potential diabetic exemptions and today's notice pronounces no proposal on how to handle those situations. The agency may grant or deny either or both requests based on the comments received, and any other relevant information that is available to the agency.

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel SPIRIT.

SUMMARY: As authorized by Public Law 105-383, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. A request for such a waiver has been received by MARAD. The vessel, and a description of the proposed service, is listed below. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines that in accordance with Public Law 105-383 and MARAD's regulations at 46 CFR part 388 (65 FR 6905; February 11, 2000) that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels, a waiver will not be granted.

DATES: Submit comments on or before September 23, 2002.

ADDRESSES: Comments should refer to docket number MARAD-2002-13161. Written comments may be submitted by hand or by mail to the Docket Clerk, U.S. DOT Dockets, Room PL-401, Department of Transportation, 400 7th St., SW., Washington, DC 20590-0001.

SUPPLEMENTARY INFORMATION: Title V of Public Law 105-383 provides authority to the Secretary of Transportation to administratively waive the U.S.-build requirements of the Jones Act, and other statutes, for small commercial passenger vessels (no more than 12 passengers). This authority has been delegated to the Maritime Administration per 49 CFR 1.66, Delegations to the Maritime Administrator, as amended. By this notice, MARAD is publishing information on a vessel for which a request for a U.S.-build waiver has been received, and for which MARAD requests comments from interested parties. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR part 388.

The nearest sailing school is in Gig Harbor, 20 miles away that only utilizes sailing dinghies. In addition, to my knowledge, there are no sail charters available on the entire west side of Puget Sound."

(6) A statement on the impact this waiver will have on U.S. shipyards. According to the applicant: "I do not see any impact that this would have on U.S. Shipyards, as the U.S. Shipyards do not currently produce a low-profile pilothouse sailing vessel of this configuration."
