

Submission to the Federal Energy Regulatory Commission

The interim rate herein confirmed, approved, and placed into effect, together with supporting documents, will be submitted to FERC for confirmation and final approval.

Order

In view of the foregoing and under the authority delegated to me, I confirm and approve on an interim basis, effective August 1, 2008, Rate Schedule SNF-7 for the Washoe Project, Stampede Division of the Western Area Power Administration. The rate schedule shall remain in effect on an interim basis, pending FERC's confirmation and approval of them or substitute rate on a final basis through July 31, 2013.

Dated: July 14, 2008.

Jeffrey F. Kupfer,
Acting Deputy Secretary.
Rate Schedule SNF-7
(Supersedes Schedule SNF-6)

**United States Department of Energy
Western Area Power Administration
Washoe Project, Stampede Division**

*Schedule of Rate for Non-Firm Power
Formula Rate*

Effective

The first day of the first full billing period beginning on or after August 1, 2008, through July 31, 2013, or until superseded by another rate schedule, whichever occurs earlier.

Available

Within the marketing area served by the Sierra Nevada Customer Service Region.

Applicable

To preference customers under the 2004 Power Marketing Plan and the applicable third party(ies) who are under contract (Contractor) with Western.

Character and Conditions of Service

Alternating current, 60 hertz, three-phase, delivered and metered at the voltages and points established by contract.

Non-Firm Power Formula Rate

In order to serve project use loads and effectively market the energy from Stampede, Western has contracted with a third-party Contractor that provides for a Stampede Energy Exchange Account (SEEA). The SEEA is an annual energy exchange account for Stampede energy. In the SEEA, the revenues from sales (generation revenues) made at the

SEEA Rate are reduced by the project use and station service power costs and SEEA administrative costs. Western applies the ratio of project use costs to the generation revenue recorded in the SEEA to determine a non-reimbursable percentage. One hundred percent minus this non-reimbursable percentage establishes a reimbursable percentage. This reimbursable percentage is then applied to the appropriate power-related costs to determine the reimbursable costs for repayment. The reimbursable costs are then netted against generation revenues made at the SEEA Rate. As stipulated under the 2004 Power Marketing Plan, any remaining reimbursable costs, to include interest and annual capital costs, are then transferred to the Central Valley Project for incorporation into the CVP Power Revenue Requirement.

The provisional formula rate for Stampede power is:

Stampede Annual Transferred PRR =
Stampede Annual PRR – Stampede
Revenue

Where:

Stampede Annual Transferred Power
Revenue Requirement (PRR) = Stampede
Annual PRR as identified as a cost
transferred to the CVP.

Stampede Annual PRR = The total PRR for
Stampede required to repay all annual
costs, including interest, and the
investment within the allowable period.
Stampede Revenue = Revenue from applying
the SEEA Rate to project generation.

Billing

Billing for the SEEA Rate will be as specified in the service agreement.

Adjustment for Losses

Losses will be accounted for under this rate schedule as stated in the service agreement.

**ENVIRONMENTAL PROTECTION
AGENCY**

[EPA-HQ-OECA-2007-0128; FRL-8695-6]

**Agency Information Collection
Activities; Submission to OMB for
Review and Approval; Comment
Request; NESHAP for Ferroalloys
Production: Ferromanganese and
Silicomanganese (Renewal), ICR
Number 1831.04, OMB Number 2060-
0391**

AGENCY: Environmental Protection
Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before August 21, 2008.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2007-0128, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Maria Malavé, Compliance Assessment and Media Programs Division, Mail Code 2223A, Office of Compliance, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; *telephone number:* (202) 564-7027; *fax number:* (202) 564-0050; *e-mail address:* malave.maria@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On March 9, 2007 (72 FR 10735), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2007-0128, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the

Enforcement and Compliance Docket is (202) 566-1927.

Use the EPA electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note the EPA policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NESHAP for Ferroalloys Production: Ferromanganese and Silicomanganese (Renewal).

ICR Numbers: EPA ICR Number 1831.04, OMB Number 2060-0391.

ICR Status: This ICR is scheduled to expire on September 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the EPA regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) using Maximum Achievable Control Technology were proposed on August 4, 1998, promulgated on May 20, 1999, and amended most recently on March 22, 2001. The rule applies to ferroalloy production facilities that manufacture ferromanganese and silicomanganese that are major sources of hazardous air pollutants (HAPs) or are co-located at major sources of HAPs.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports. Respondents that are not required to conduct an initial performance test are required to notify the EPA

Administrator of the initial compliance status of the source. Sources are also required to monitor and maintain records of its operations including: (1) Process or control device parameters; (2) bag leak detention systems; (3) maintenance plan for air pollution control devices (e.g., capture system and venturi scrubbers); (4) certification that monitoring devices are accurate; and (5) the implementation and corrective actions taken related to the startup, shutdown and malfunction plan and the fugitive dust control plan. The types of periodic reports required by this regulation include: Opacity-related reports; performance test results reports; immediate and periodic startup/shutdown/malfunction reports, quarterly emissions reports; capture hood inspection reports; fugitive dust operations reports; and annual compliance status reports. These notifications, reports, and records are essential in determining compliance, and are required of all sources subject to NESHAP standards.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 83 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Ferroalloy production facilities that manufacture ferromanganese and silicomanganese and are either major sources of HAPs or are co-located at major sources of HAPs.

Estimated Number of Respondents: 1.
Frequency of Response: Initially, annually, semiannually and quarterly.
Estimated Total Annual Hour Burden: 584 hours.

Estimated Total Annual Costs: \$37,129 in Labor costs exclusively. There are no annualized capital/startup or O&M costs associated with this ICR.

Changes in the Estimates: There are no changes in the labor hours and cost in this ICR compared to the previous

ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is either very low, or negative, or non-existent, so there are no significant changes in the overall burden.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR are used in this ICR, and there is no change in burden to industry.

Dated: July 16, 2008.

Sara Hisel-McCoy,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8695-8]

Notice of Availability of Draft NPDES General Permits MAG7000 and NHG7000 for Discharges From Dewatering Activities in the States of Massachusetts and New Hampshire: the Dewatering General Permit (DGP)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Availability of Draft NPDES General Permits MAG7000 and NHG7000.

SUMMARY: The Director of the Office of Ecosystem Protection, EPA-New England, is issuing a notice of availability of the draft National Pollutant Discharge Elimination System (NPDES) general permits for dewatering activity discharges to certain waters of the Commonwealth of Massachusetts and the State of New Hampshire. These General Permits replace the Construction Dewatering General Permits which expired on September 23, 2007.

These draft General Permits establish Notice of Intent (NOI) requirements, effluent limitations, standards, prohibitions, and management practices for facilities with dewatering activity discharges from construction dewatering, flushing of potable water lines, pump testing of water wells, and dewatering of foundation sumps. Owners and/or operators of facilities with dewatering discharges, including those currently authorized to discharge under the expired General Permits, will be required to submit an NOI to be covered by the General Permit to both EPA-New England and the appropriate
