

*Filed Date:* 10/28/14.

*Accession Number:* 20141028–5113.

*Comments Due:* 5 p.m. ET 11/10/14.

*Docket Numbers:* RP15–73–000.

*Applicants:* Iroquois Gas Transmission System, L.P.

*Description:* § 4(d) rate filing per 154.204: 10/28/14 Negotiated Rates—Rainbow Energy Marketing Corp. (HUB) 7400–89 to be effective 11/1/2014.

*Filed Date:* 10/28/14.

*Accession Number:* 20141028–5114.

*Comments Due:* 5 p.m. ET 11/10/14.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified date(s). Protests may be considered, but intervention is necessary to become a party to the proceeding.

#### Filings in Existing Proceedings

*Docket Numbers:* RP14–945–001.

*Applicants:* WBI Energy Transmission, Inc.

*Description:* Compliance filing per 154.203: Compliance Filing on Order to Show Cause to be effective 10/16/2014.

*Filed Date:* 10/28/14.

*Accession Number:* 20141028–5039.

*Comments Due:* 5 p.m. ET 11/10/14.

Any person desiring to protest in any of the above proceedings must file in accordance with Rule 211 of the Commission's Regulations (18 CFR 385.211) on or before 5:00 p.m. Eastern time on the specified comment date.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated October 29, 2014.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OEI–2011–0096; FRL–9918–82–OEI]

### Proposed Information Collection Request; Comment Request; Cross-Media Electronic Reporting Rule

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “Cross-Media Electronic Reporting Rule” (EPA ICR No. 2002.06, OMB Control No. 2025–0003) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through April 30, 2015. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

**DATES:** Comments must be submitted on or before January 5, 2015.

**ADDRESSES:** Submit your comments, referencing Docket ID No. EPA–HQ–OEI–2011–0096, online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), by email to [oei.docket@epa.gov](mailto:oei.docket@epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

#### FOR FURTHER INFORMATION CONTACT:

Karen Seeh, Office of Environmental Information, (2823T), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: 202–566–1175; fax number: 202–566–1684; email address: [seeh.karen@epa.gov](mailto:seeh.karen@epa.gov).

#### SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov)

or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

**Abstract:** The scope of this ICR is the electronic reporting components of CROMERR, which is designed to: (i) Allow EPA to comply with the Government Paperwork Elimination Act of 1998; (ii) provide a uniform, technology-neutral framework for electronic reporting across all EPA programs; (iii) allow EPA programs to offer electronic reporting as they become ready for CROMERR; and (iv) provide states with a streamlined process—together with a uniform set of standards—for approval of their electronic reporting provisions for all their EPA-authorized programs. Responses to the collection of information are voluntary. In order to accommodate CBI, the information collected must be in accordance with the confidentiality regulations set forth in 40 CFR Part 2, Subpart B. Additionally, EPA will ensure that the information collection procedures comply with the Privacy Act of 1974 and the OMB Circular 108.

**Form Numbers:** None.

**Respondents/affected entities:** Entities that report electronically to EPA and

state or local government authorized programs; and state and local government authorized programs implementing electronic reporting.

*Respondent's obligation to respond:* Voluntary, required to obtain or retain a benefit (Cross-Media Electronic Reporting Rule (CROMER) established to ensure compliance with the Government Paperwork Elimination Act (GPEA)).

*Estimated number of respondents:* 102,387 (total).

*Frequency of response:* On occasion.

*Total estimated burden:* 38,491 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$2,086,380 (per year), including \$1,438,861 in annualized labor costs and \$647,519 in annualized capital or operation & maintenance costs.

*Changes in Estimates:* There is a decrease of 1,272 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease occurred primarily because there was a decrease in the total annual number of employees complying with CROMERR's identity proofing requirements. In estimating the annual number of employees complying with the CROMERR's identity proofing requirements for this ICR, EPA was able to take advantage of improvements in data software and hardware capabilities and thus, develop estimates based on actual data instead of the complex calculations used in the currently approved ICR. In particular, EPA was able to obtain actual numbers and growth rates for the annual number of subscriber agreements submitted to CDX over the past several years. These data were used to improve the estimate for the annual number of subscriber agreements submitted by direct reporters. EPA believes that the respondent estimates included in this ICR are a reasonable approximation of the actual respondent universe.

Dated: October 28, 2014.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 9918-79-ORD]

### Office of Research and Development; Ambient Air Monitoring Reference and Equivalent Methods: Designation of Two New Reference Methods and Two New Equivalent Methods

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of designation of two reference methods and two equivalent methods for monitoring ambient air quality.

**SUMMARY:** Notice is hereby given that the Environmental Protection Agency (EPA) has designated, in accordance with 40 CFR Part 53, two new reference methods and two new equivalent methods. The reference methods include one for measuring PM<sub>2.5</sub>, and one for measuring PM<sub>10-2.5</sub> in the ambient air. The two equivalent methods are one for measuring carbon monoxide (CO) and one for measuring ozone (O<sub>3</sub>) in the ambient air.

**FOR FURTHER INFORMATION CONTACT:** Robert Vanderpool, Human Exposure and Atmospheric Sciences Division (MD-D205-03), National Exposure Research Laboratory, U.S. EPA, Research Triangle Park, North Carolina 27711. Email: [Vanderpool.Robert@epa.gov](mailto:Vanderpool.Robert@epa.gov).

**SUPPLEMENTARY INFORMATION:** In accordance with regulations at 40 CFR part 53, the EPA evaluates various methods for monitoring the concentrations of those ambient air pollutants for which EPA has established National Ambient Air Quality Standards (NAAQSs), as set forth in 40 CFR part 50. Monitoring methods that are determined to meet specific requirements for adequacy are designated by the EPA as either reference methods or equivalent methods (as applicable), thereby permitting their use under 40 CFR part 58 by States and other agencies for determining compliance with the NAAQSs.

The EPA hereby announces the designation of one new reference method for measuring PM<sub>2.5</sub>, one new reference method for measuring PM<sub>10-2.5</sub>, one new equivalent method for measuring concentrations of carbon monoxide (CO), and one equivalent method for measuring ozone (O<sub>3</sub>) in the ambient air. These designations are made under the provisions of 40 CFR part 53, as amended on August 31, 2011 (76 FR 54326-54341).

The new reference method for PM<sub>2.5</sub> is a manual monitoring method based on a particular PM<sub>2.5</sub> sampler and is identified as follows:

RFPS-1014-219, "Tisch Environmental Model TE-Wilbur2.5 PM<sub>2.5</sub> Low-Volume Air Particulate Sampler," configured as a PM<sub>2.5</sub> reference method, with firmware version 1.70 or later and a TE-PM<sub>10-D</sub> PM<sub>10</sub> size-selective inlet as specified in 40 CFR 50 Appendix L Figs. L-2 thru L-19, with either a BGI VSCC™ Very Sharp Cut Cyclone particle size separator or WINS impactor, and operated for 24 sample periods at a flow rate of 16.67 L/min, using 47 mm PTFE membrane filter media, and in accordance with the Tisch Environmental Model TE-Wilbur2.5 PM<sub>2.5</sub> Low-Volume Air Particulate Sampler instruction manual and with the requirements and sample collection filters as specified in 40 CFR part 50, Appendix L.

The new PM<sub>10-2.5</sub> reference method utilizes a pair of filter samplers than have been designated individually as reference methods, one for PM<sub>2.5</sub> and the other one for PM<sub>10</sub>, and have been shown to meet the requirements specified in Appendix O of 40 CFR part 50. The PM<sub>2.5</sub> and PM<sub>10</sub> samplers are designated as reference methods RFPS-1014-219 and RFPS-0714-216, respectively. The newly designated PM<sub>10-2.5</sub> sampler is identified as follows:

RFPS-1014-220, "Tisch Environmental Model TE-Wilbur Low-Volume Air Particulate Sampler Pair" for the determination of coarse particulate matter as PM<sub>10-2.5</sub>, consisting of a pair of Tisch Environmental Model TE-Wilbur samplers, with one being the TE-Wilbur 2.5 PM<sub>2.5</sub> sampler (RFPS-1014-219) and the other being a TE-Wilbur 10 PM<sub>10</sub> sampler (RFPS-0714-216), and operated in accordance with the associated TE-Wilbur instruction manual. This designation applies to PM<sub>10-2.5</sub> measurements only.

The application for reference method determination for the PM<sub>2.5</sub> method was received by the Office of Research and Development on September 29, 2014 and the PM<sub>10-2.5</sub> method application was received on October 8, 2014. These monitors are commercially available from the applicant, Tisch Environmental, Inc., 145 S. Miami Avenue, Village of Cleves, OH 45002.

The newly designated equivalent method for CO is a mercury replacement-UV photometric method and is identified as follows:

EQCA-0814-217, "Peak Laboratories, Model 910-170 Carbon Monoxide Analyzer", (Mercury replacement—UV photometric method) operated on any
