SUPPLEMENTARY INFORMATION:

A. Purpose

The FAR clause at 52.236-13, Accident Prevention, requires Federal construction contractors to keep records of accidents incident to work performed under the contract that result in death, traumatic injury, occupational disease or damage to property, materials, supplies or equipment. Records of personal inquiries are required by the Department of Labor's Occupational Safety and Health Administration regulations. The records maintained by the contractor are used to evaluate compliance and may be used in workmen's compensation cases. The FAR requires records of damage to property, materials, supplies or equipment to provide background information when claims are brought against the Government.

If the contract involves work of a long duration, or hazardous nature, the contracting officer shall insert the clause with its alternate that requires the contractor to submit a written proposed plan for implementing the clause. The plan shall include an analysis of the significant hazards to life, limb, and property inherent in performing the contract and a plan for controlling the hazards. The Accident Prevention Plan is analyzed by the contracting officer along with the agency safety representatives to determine if the proposed plan will meet the requirements of safety regulations and applicable statutes.

B. Annual Reporting Burden

The estimated reporting burden has been adjusted since published in the **Federal Register** at 74 FR 41133, on August 14, 2009. The adjustment is based on an evaluation of Federal Procurement Data System award information for the services applicable to FAR Clause 52.213-36, and consultation with subject matter experts within the Government that procure such services.

Respondents: 350.

Responses per Respondent: 1.

Annual Responses: 350.

Hours per Response: 24.

Total Burden Hours: 8,400.
