

II. Determination of Regulatory Review Period

FDA has determined that the applicable regulatory review period for PIQRAY is 3,264 days. Of this time, 3,106 days occurred during the testing phase of the regulatory review period, while 158 days occurred during the approval phase. These periods of time were derived from the following dates:

1. *The date an exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 355(i)) became effective:* June 18, 2010. FDA has verified the applicant's claim that the date the investigational new drug application became effective was on June 18, 2010.

2. *The date the application was initially submitted with respect to the human drug product under section 505 of the FD&C Act:* December 18, 2018. The applicant claims October 26, 2018, as the date the new drug application (NDA) for PIQRAY (NDA 212526) was initially submitted. However, FDA records indicate that NDA 212526 was submitted on December 18, 2018.

3. *The date the application was approved:* May 24, 2019. FDA has verified the applicant's claim that NDA 212526 was approved on May 24, 2019.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the USPTO applies several statutory limitations in its calculations of the actual period for patent extension. In its applications for patent extension, this applicant seeks 969 or 1,156 days of patent term extension.

III. Petitions

Anyone with knowledge that any of the dates as published are incorrect may submit either electronic or written comments and, under 21 CFR 60.24, ask for a redetermination (see **DATES**). Furthermore, as specified in § 60.30 (21 CFR 60.30), any interested person may petition FDA for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must comply with all the requirements of § 60.30, including but not limited to: Must be timely (see **DATES**), must be filed in accordance with § 10.20, must contain sufficient facts to merit an FDA investigation, and must certify that a true and complete copy of the petition has been served upon the patent applicant. (See H. Rept. 857, part 1, 98th Cong., 2d sess., pp. 41–42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Submit petitions electronically to <https://www.regulations.gov> at Docket

No. FDA–2013–S–0610. Submit written petitions (two copies are required) to the Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852.

Dated: June 22, 2021.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2021-0233]

Request for Information on Coast Guard Programs, Regulations, and Policies for Addressing Climate Change

AGENCY: Coast Guard, DHS.

ACTION: Request for information.

SUMMARY: The U.S. Coast Guard seeks input from the public on specific Coast Guard programs, regulations, policies, and procedures that the Coast Guard should consider changing to combat and respond to climate change. This information will help the Coast Guard effectively achieve its missions in a manner that advances the Administration's urgent priorities of climate change mitigation, adaptation, and resilience. We further seek this input to ensure that we are implementing programs, policies, and activities that address (1) the cumulative effects of environmental damage, above all from climate change and (2) the disproportionately high, adverse

climate-related impacts on disadvantaged communities, while also promoting a safe, secure, and resilient marine transportation system that facilitates commerce and secures national security interests.

DATES: Comments must be submitted to the online docket via <https://www.regulations.gov> on or before October 6, 2021.

ADDRESSES: You may submit comments identified by docket number USCG-2021-0233 using the Federal eRulemaking Portal at <https://www.regulations.gov>. See the "Public Participation and Request for Comments" portion of the **SUPPLEMENTARY INFORMATION** section for further instructions on submitting comments.

FOR FURTHER INFORMATION CONTACT: For information about this document call or email Mr. Tim Brown, Coast Guard; telephone 202-372-2358, email Timothy.M.Brown@uscg.mil.

II. Background

The Coast Guard is issuing this request for information in response to Executive Orders 13990 and 14008, which have established the protection of public health and the environment, the mitigation of climate change, and the advancement of environmental justice as policy priorities for this Administration. Executive Order 13990, *Protecting Public Health and the Environment and Restoring Science To Tackle the Climate Crisis*,¹ states that the Administration's policy is to listen to science; to ensure access to clean air and water; to limit exposure to dangerous chemicals and pesticides; to hold polluters accountable, including those that disproportionately harm communities of color and low-income communities; to reduce greenhouse gas emissions; to bolster resilience to the impacts of climate change; to restore and expand our national treasures and monuments; and to prioritize both environmental justice and the creation of the well-paying union jobs necessary to deliver on these goals. The Order directs agencies to seek input from the public and stakeholders, including State, local, Tribal, and territorial officials, scientists, labor unions, environmental advocates, and environmental justice organizations.

The Order directs agencies immediately to review all regulations, orders, guidance documents, policies, or any other similar agency actions undertaken between January 20, 2017, and January 20, 2021, that are inconsistent with the listed policy priorities. In addition, agencies are directed to contemplate and consider whether to take any additional agency actions, within their authority, to fully enforce the listed policy priorities.

Executive Order 14008, *Tackling the Climate Crisis at Home and Abroad*,² further places the climate crisis at the center of U.S. foreign policy and national security by deploying the full capacity of its agencies to combat the climate crisis, by implementing a Government-wide approach that reduces climate pollution in every sector of the economy; by increasing resilience to the impacts of climate change; by protecting public health; by conserving our lands, waters, and biodiversity; by delivering environmental justice; and by spurring
