

DEPARTMENT OF ENERGY**Western Area Power Administration****Boulder Canyon Project—Post-2017 Application of the Energy Planning and Management Program Power Marketing Initiative**

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of extension of comment period.

SUMMARY: The Western Area Power Administration (Western), Desert Southwest Region, a Federal power marketing agency of the Department of Energy (DOE), is extending the comment period regarding the application of the Energy Planning and Management Program (Program) Power Marketing Initiative (PMI) (10 CFR part 905) to the Boulder Canyon Project (BCP).

This **Federal Register** notice extends the comment period for the proposed application of the PMI to the BCP and all other proposals contained in Western's November 20, 2009, **Federal Register** notice.

DATES: The consultation and comment period for the application of the PMI to BCP has been extended from January 29, 2010, to September 30, 2010.

ADDRESSES: Comments may be submitted to: Mr. Darrick Moe, Western Area Power Administration, Desert Southwest Regional Manager, P.O. Box 6457, Phoenix, AZ 85005-6457. Comments may also be faxed to (602) 605-2490 or e-mailed to Post2017BCP@wapa.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Mike Simonton, Remarketing Specialist, Desert Southwest Region, Western Area Power Administration, P.O. Box 6457, Phoenix, AZ 85005, telephone (602) 605-2675, e-mail Post2017BCP@wapa.gov. Further information regarding this effort can be found at <http://www.wapa.gov/dsw/pwrmtkt>.

SUPPLEMENTARY INFORMATION: On November 20, 2009, Western published a notice in the **Federal Register** (74 FR 60256) announcing its Post-2017 remarketing effort for the BCP. This **Federal Register** notice included a proposal to apply the PMI to the BCP as well as other aspects related to the remarketing of BCP generation capacity and energy after the current long-term contracts expire on September 30, 2017.

Western subsequently held public information forums from December 1-3, 2009, and public comment forums from January 19-21, 2010. As a result of these forums, several requests were made to

extend the comment period to allow for further study of the proposals and external developments.

This extension of the January 29 deadline to September 30 provides Western additional time to examine the issues raised in the comments received on the proposed application of the PMI to the BCP and the other Western proposals, and provides all interested parties additional opportunity to consult with Western and comment on the proposals.

Dated: April 8, 2010.

Timothy J. Meeks,
Administrator.

Title: NESHAP for Flexible Polyurethane Foam Product (Renewal).

ICR Numbers: EPA ICR Number 1783.05, OMB Control Number 2060-0357.

ICR Status: This ICR is scheduled to expire on June 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is

pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Maximum Achievable Control Technology (MACT) standards for Flexible Polyurethane Foam Product (40 CFR part 63, subpart III) were proposed on December 27, 1996, and promulgated on October 7, 1998.

Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 43 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Flexible polyurethane foam product facilities.

Estimated Number of Respondents: 132.

Frequency of Response: Initially, occasionally, semiannually, and annually.

Estimated Total Annual Hour Burden: 9,047.

Estimated Total Annual Cost: \$850,851, which is comprised exclusively of labor costs. There are neither annualized capital/startup costs nor operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours of the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent. Therefore, labor hours in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR.

The increases in labor costs to the respondents and the Agency are due to labor rate adjustments that reflect the rates for fiscal year 2009. The increases are not due to any program changes. Labor rates in the previous ICR were based on fiscal year 2003.

Dated: April 9, 2010.

John Moses,

Director, Collection Strategies Division.

Maneb; Cancellation Order for a Certain Pesticide Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellation, voluntarily requested by the registrant and accepted by the Agency, of a product containing maneb, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a March 4, 2010, **Federal Register** Notice of Receipt of Request from the registrant listed in Table 2 in Unit II. of this document, to voluntarily cancel this product registration. This is the last product containing this pesticide registered for use in the United States. In the March 4, 2010 Notice, EPA indicated that it would issue an order implementing the cancellation, unless the Agency received substantive comments within the 30 day comment period that would merit its further

review of these requests, or unless the registrant withdrew their request. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw their request.

Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellation. Any distribution, sale, or use of the product subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellation is effective April 16, 2010.
