Dynamic Random Access Memory Semiconductors of One Megabit or Above From the Republic of Korea: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of preliminary results of antidumping duty administrative review.

SUMMARY: In response to requests from one manufacturer/exporter and one U.S. producer of the subject merchandise, the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on dynamic random access memory semiconductors of one megabit or above (DRAMs) from the Republic of Korea (Korea). The review covers two manufacturers/exporters and six resellers of subject merchandise to the United States during the period of review (POR), May 1, 1999, through December 31, 1999. Based upon our analysis, the Department has preliminarily determined that dumping margins exist for a manufacturer/exporter and the six resellers during the POR. If these preliminary results are adopted in our final results of administrative review, we will instruct the United States Customs Service (Customs) to assess antidumping duties as appropriate. Interested parties are invited to comment on these preliminary results. Parties who submit arguments in this proceeding are requested to submit with the argument (1) a statement of the issue, and (2) a brief summary of the argument.

EFFECTIVE DATE: June 7, 2001.
