

for food allergens and for gluten, and to identify the biological concepts and data needed to evaluate the scientific soundness of each approach. The draft report entitled "Approaches to Establish Thresholds for Major Food Allergens and for Gluten in Food" is the result of the working group's deliberations.

In the **Federal Register** of May 23, 2005 (70 FR 29528), FDA announced a meeting of the agency's Food Advisory Committee (FAC) on July 13, 14, and 15, 2005. At this meeting, the FAC will be asked to evaluate the draft report entitled "Approaches to Establish Thresholds for Major Food Allergens and for Gluten in Food." In particular, the FAC will advise FDA whether, in the committee's view, the draft report is scientifically sound in its analyses and approaches and adequately considers available relevant data on food allergens and on gluten. In seeking the committee's advice, FDA plans to pose a series of scientific questions. These questions will be posted on CFSAN's Web site at <http://www.cfsan.fda.gov/~lrd/vidtel.html> on July 12, 2005. Members of the public who may wish to participate in the FAC meeting, by written submission or an oral presentation, should consult the meeting notice for information regarding such participation.

In addition to the FAC proceedings, the agency believes it would be useful to receive public comments on the Threshold Working Group's draft report. The draft report describes a number of areas in which the working group concluded that the body of scientific data relating to food allergen thresholds is incomplete. Accordingly, FDA requests that members of the public submit comments and any relevant scientific data and information, particularly data and information that can fill the data gaps identified in the draft report.

II. Request for Comments and for Scientific Data and Information

Interested persons should submit comments and scientific data and information to the Division of Dockets Management (see **ADDRESSES**). Three copies of all comments and scientific data and information are to be submitted. Individuals submitting written information or anyone submitting electronic comments may submit one copy. Submissions are to be identified with the docket number found in brackets in the heading of this document and may be accompanied by supporting information. Received submissions may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

Information submitted after the closing date will not be considered except by petition under 21 CFR 10.30.

III. Electronic Access

The draft report is available electronically at <http://www.cfsan.fda.gov/~dms/wh-alrgy.html>.

Dated: June 14, 2005.

Jeffrey Shuren,

Assistant Commissioner for Policy.
