POLICY JUSTIFICATIONPeru – Refurbishment of Two NEWPORT Class Landing Ship Tanks

The Government of Peru has requested a possible sale for the refurbishment of two NEWPORT Class Tank Landing Ships, Ex-Fresno (LST-1182) and Ex-Racine (LST-1191) being provided as Excess Defense Articles (grant EDA notification is being submitted separately) with rigid inflatable boats, spare and repairs parts, support equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$82 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic progress in South America.

This proposed sale will enable the Peruvian Navy to be interoperable with U.S. forces conducting maritime interdiction operations, improve its ability to execute counter narcotics, and counterterrorism capabilities, and ensure Peru's overall ability to maintain integrity of its borders. Peru will have no difficulty absorbing the ships into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be VSE Corporation of Alexandria, Virginia, and Fairbanks Morse of San Diego, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of contractor representatives to provide technical and logistics support in Peru for a period of three years. U.S. Government and contractor representatives will also be required to participate in program management and technical reviews for one week intervals, semi-annually.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATIONKuwait - Technical Assistance for Construction of Facilities and Infrastructure

The Government of Kuwait has requested a possible sale for the design and construction of facilities and infrastructure for the Al Mubarak Air Base Upgrade and the Kuwait Air Force Headquarters Complex. The U.S. Army Corps of Engineers (USACE) will provide engineering, planning, design, acquisition, contract administration, construction management, and other technical services for construction of facilities and infrastructure (repair, rehabilitation, and new construction) in support of the administrative, operational, storage, support facilities and utility infrastructure of the Kuwait Air Force. The scope of the program includes provision of technical assistance for facilities that include administrative, operations, passenger processing, air crew, billeting, community support, maintenance and air control, perimeter security, supply and storage, and utility infrastructure. The estimated cost is \$700 million.

This proposed sale would contribute to the foreign policy and national security of the U.S. by enhancing Kuwait's capacity to support USG efforts.

This proposed sale would enable Kuwait to support the operational effectiveness of its military, to establish security and stability throughout Kuwait, and to promote the stability and development of a friendly, democratic central government.

The proposed sale of this infrastructure and support will not alter the basic military balance in the region.

The USACE is the principal organization that will direct and manage this program. The USACE will provide services through both in-house personnel and contract services. Contracts will be procured in accordance with Federal Government contracting law and regulations. There are no known offset agreements proposed in connection with this potential sale.

The estimated number of U.S. Government and contractor representatives to be assigned to Kuwait to implement the provisions of this proposed sale will be determined during program execution.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Dated: November 27, 2009.
