DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Toxic Substances and Disease Registry

[ATSDR-269]

Proposed Substances To Be Evaluated for Set 25 Toxicological Profiles

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR), Department of Health and Human Services (HHS).

ACTION: Request for comments on the proposed substances to be evaluated for Set 25 toxicological profiles.

SUMMARY: ATSDR is initiating the development of its 25th set of toxicological profiles (CERCLA Set 25). This notice announces the list of proposed substances that will be evaluated for CERCLA Set 25 toxicological profile development. ATSDR's Division of Toxicology and Environmental Medicine is soliciting public nominations from the list of proposed substances to be evaluated for toxicological profile development. ATSDR also will consider the nomination of any additional, non-CERCLA substances that may have public health implications, on the basis of ATSDR's authority to prepare toxicological profiles for substances not found at sites on the National Priorities List. The agency will do so in order to " * * * establish and maintain inventory of literature, research, and studies on the health effects of toxic substances" under CERCLA Section 104(i)(1)(B), to respond to requests for consultation under section 104(i)(4), and to support the site-specific response actions conducted by ATSDR, as otherwise necessary.

DATES: Nominations must be submitted within 30 days of the publication of this notice.

ADDRESSES: Nominations may be submitted electronically. Refer to the section *Submission of Nominations* (below) for the specific address.

SUPPLEMENTARY INFORMATION: The Superfund Amendments and

Reauthorization Act of 1986 (SARA) [42 U.S.C. 9601 *et seq.*] amended the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA or Superfund) [42 U.S.C. 9601 *et seq.*] by establishing certain requirements for ATSDR and the U.S. Environmental Protection Agency (EPA) with regard to hazardous substances most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these statutory requirements is a mandate for the Administrator of ATSDR to prepare toxicological profiles for each substance included on the Priority List of Hazardous Substances. This list identifies 275 hazardous substances that ATSDR and EPA have determined pose the most significant current potential threat to human health. The availability of the revised list of the 275 priority substances was announced in the **Federal Register** on March 6, 2008 (73 FR 12178). For prior versions of the list of substances, see **Federal Register** notices dated April 17, 1987 (52 FR 12866); October 20, 1988 (53 FR 41280); October 26, 1989 (54 FR 43619); October 17, 1990 (55 FR 42067); October 17, 1991 (56 FR 52166); October 28, 1992 (57 FR 48801); February 28, 1994 (59 FR 9486); April 29, 1996 (61 FR 18744); November 17, 1997 (62 FR 61332); October 21, 1999 (64 FR 56792); October 25, 2001 (66 FR 54014); November 7, 2003 (68 FR 63098); and November 29, 2005 (70 FR 71506).

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Division of Heart Disease and Stroke Prevention Management Information System—Revision—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

CDC's Division of Heart Disease and Stroke Prevention (DHDSPP) is currently approved to collect progress and activity information from awardees funded through two programs: The National Heart Disease and Stroke Prevention Program (NHDSPP), and the Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN) program. Information is collected semi-annually through an electronic Management Information System (MIS). The current approval is scheduled to expire 5/31/2011 (OMB No. 0920-0679).

CDC requests OMB approval to continue information collection, with changes, for three years. A net reduction in the number of respondents will result in a net reduction in burden hours. Although there will be an increase in the number of awardees funded for State-based heart disease and stroke prevention (HDSP) programs, reporting requirements involving the MIS will be discontinued for awardees funded through the WISEWOMAN program. No changes are proposed to the information collection instrument, the burden per response, or the frequency of information collection.

CDC currently supports population-based heart disease and stroke prevention efforts in selected States and
