

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Administration for Children and Families****Submission for OMB Review; Comment Request**

Title: Provisions of Services in Interstate Child Support.

Enforcement: Standard Forms.

OMB No.: 0970–0085.

Description: Public Law 104–193, the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, amended 42 U.S.C. 666 to require State and Territory Child Support Enforcement (CSE) IV–D agencies to enact the Uniform Interstate Family Support Act (UIFSA) into State and Territory law by January 1, 1998.

Section 311(b) of UIFSA requires States and Territories to use standard interstate forms. 45 CFR 303.7 also requires CSE IV–D agencies to transmit child support case information on standard interstate forms when referring cases to other States and Territories for processing. During the OMB clearance process, we are taking the opportunity to make revisions that have been requested by the State.

Overall, the language, format and instructions have been standardized across the forms. The title of the forms has been changed to “Intergovernmental” to reflect their use by States, Tribes, and foreign countries. For clarity in the Transmittal Initial Request we added a field for Born Out of Wedlock and Date Paternity Established. Instructions for the new fields have been added. Fields to

identify Tribal affiliation have been added to all three Transmittals as well as instructions for this field. The instructions have been clarified by highlighting policy information that was included with the instructions so it is distinct and by making the instructions that are common across the forms consistent. Minor changes to common labels across the instructions have been made for consistency, e.g., Social Security No. and SSN to Social Security Number, email and E-mail to E-Mail, fax and Fax to FAX. These changes are in response to requests and comments made by States.

Respondents: State and Territory agencies administering the Child Support Enforcement program under title IV–D of the Social Security Act.

National Institutes of Health

Submission for OMB Review; Comment Request; Testing Successful Health Communications Surrounding Aging-Related Issues From the National Institute on Aging (NIA)

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institute on Aging, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the *Federal Register* on 09-27-2010 at 08:45:00 (<http://federalregister.gov/a/2010-24277>, Vol. 75, No. 187, Page: 59723-59724 (2 pages); Document Citation: 75 FR 59723; Document Number: 2010-24277) and allowed 60-days for public comment. One comment was received from an organization who requested to be considered as a contractor for NIA's project. No other public comments were received. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: *Title:* Testing successful health communications surrounding aging-related issues from the National Institute on Aging (NIA). *Type of Information Collection Request:* New. *Need and Use of Information Collection:* This study will support NIA's mission "to communicate

information about aging and advances in research on aging to the scientific community, health care providers, and the public." The primary objectives of this study are to:

- Assess audiences' trusted/preferred sources for information, knowledge, attitudes, behaviors, and other characteristics for the planning/development of health messages and communications strategies;
- Pre-test health messages and outreach strategies while they are in developmental form to assess audience response, including their likes and dislikes.

NIA's Office of Communications and Public liaison will collect this information through formative qualitative research with its key audiences—older people, caregivers, and health professionals. Methods will include focus groups, individual interviews, self-administered questionnaires, and website surveys. The information will be used to (1) develop and revise health information resources and outreach strategies to maximize their effectiveness; (2) determine new topic areas to explore for future NIA publications; and (3) identify new ways to support the health information needs of older adults and people who serve older adults. NIA is requesting a generic clearance for a range of research data collection procedures to ensure that they successfully develop and disseminate effective health communications on aging-related issues. *Frequency of Response:* On occasion. *Affected Public:* Older people, caregivers, and health professionals (physicians and non-physicians). *Type of Respondents:* Older people, caregivers, and health professionals (physicians and non-physicians). The annual reporting burden is as follows: *Estimated Number of Respondents:* 630. *Estimated Number of Responses per Respondent:* 1. *Average Burden Hours per Response:* 0.37. *Estimated Total Annual Burden Hours Requested:* 234. The annualized cost to respondents is estimated at: \$5,680. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

Type of respondents	Estimated number of respondents	Estimated number of responses per respondent	Average burden hours per response	Estimated total annual burden hours requested
Older adults	260	1	.37	97
Non-physician health professionals and caregivers	310	1	.35	107
Physicians	60	1	.5	30
Total				234
