

businesses. Pursuant to 26 U.S.C. 7805(f), the temporary rulemaking (T.D. ATF-424 (64 FR 71929)) has been submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business.

Executive Order 12866

It has been determined that this temporary rule is not a significant regulatory action as defined by Executive Order 12866 because any economic effects flow directly from the underlying statute and not from this rule. Therefore, a regulatory assessment is not required.

Paperwork Reduction Act

This rule does not impose any collection of information as defined in the Paperwork Reduction Act of 1995 (44 U.S.C. 3507(j)). Consequently, this rule is being issued without prior notice and public procedure pursuant to the Administrative Procedure Act (5 U.S.C. 553).

Administrative Procedure Act

Because this document merely extends the date when manufacturers and importers must comply with certain marking requirements, and because immediate guidance is necessary to implement this extension, it is found to be impracticable to issue this Treasury decision with notice and public procedure under 5 U.S.C. 553(b) or subject to the effective date limitation under 5 U.S.C. 553(d).

RIN 1010–AC55

Oil and Gas and Sulphur Operations in the Outer Continental Shelf—Update of Documents Incorporated by Reference, Correction

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Correction to final regulations.

SUMMARY: This document corrects the final rule titled “Update of Documents Incorporated by Reference,” which was published Tuesday, January 4, 2000 (65

FR 217). We are adding a citation to entries for two American Petroleum Institute (API) Recommended Practices (RP) in the table of Documents Incorporated by Reference and correcting a section of the regulations to incorporate by reference the two documents.

EFFECTIVE DATE: February 3, 2000. The incorporation by reference of publications listed in the regulation is approved by the Director of the **Federal Register** as of February 3, 2000.

FOR FURTHER INFORMATION CONTACT: Alexis London, Rules Processing Team, Engineering and Operations Division, (703) 787-1600.

SUPPLEMENTARY INFORMATION:

Background

The final regulations that are the subject of these corrections updated one

API document incorporated by reference (API RP 500) and added a new document incorporated by reference (API RP 505). These regulations affect all operators and lessees on the Outer Continental Shelf.

The regulation at 30 CFR 250.410(e) on safety precautions in mud-handling areas currently incorporates by reference the out-of-date document "API RP 500B." The final regulations should have revised § 250.410(e) to reference "API RP 500" or "API RP 505" as it did for various other sections of our regulations. The list of citations for API RP 500 and API RP 505 in the table of documents incorporated by reference in § 250.198(e) should have then included § 250.410(e).

Need for Correction

As published, the final regulations contain errors that may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the publication of the final regulations on January 4, 2000, which were the subject of FR Doc. 00-26, is corrected as follows:

§ 250.198 [Corrected]

On pages 218 and 219, in the table for § 250.198(e), the entries for API RP 500 and API RP 505 are corrected to read as follows:

§ 250.198 Documents incorporated by reference.

SUPPLEMENTARY INFORMATION:

Discussion of the Rule

Each year Title 33 of the Code of Federal Regulations is recodified on July 1. This rule makes editorial changes throughout the title, corrects addresses, updates cross-references, and makes other technical and editorial corrections to be included in the recodification. Some editorial changes are discussed individually in the following paragraphs. This rule does not change any substantive requirements of existing regulations.

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. This rule consists only of corrections and editorial and conforming amendments to Title 33 of the Code of Federal Regulations. These changes will have no substantive effect on the public and publishing an NPRM and providing an opportunity for public comment is
