

Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C. 824a(e)).

On January 29, 2010, DOE received two applications from NEMT for authority to transmit electric energy from the United States to Mexico and from the United States to Canada as a power marketer using international transmission facilities located at the United States borders with Mexico and Canada. NEMT does not own any electric transmission facilities nor does it hold a franchised service area. The electric energy which NEMT proposes to export would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. NEMT has requested electricity export authorizations with a 5-year term.

The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by NEMT has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to become a party to these proceedings or to be heard by filing comments or protests to this application should file a petition to intervene, comment, or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the NEMT applications to export electric energy to Mexico should be clearly marked with Docket No. EA-364; for exports to Canada please use Docket No. EA-365. Additional copies are to be filed directly with Joseph Limone, Noble Energy Marketing and Trade Corp., 333 Ludlow Street, Suite 1230, Stamford, CT 06902. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://www.oe.energy.gov/permits_pending.htm, or by e-mailing Odessa Hopkins at Odessa.hopkins@hq.doe.gov.

Issued in Washington, DC, on February 19, 2010.

Anthony J. Como,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Proposed Subsequent Arrangement

AGENCY: Office of International Regimes and Agreements, Department of Energy.

ACTION: Subsequent arrangement.

SUMMARY: This notice has been issued under the authority of Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160). The Department is providing notice of a proposed subsequent arrangement under the Agreement for Cooperation Between the United States of America and the Government of Canada Concerning Peaceful Uses of Nuclear Energy and the Agreement for Cooperation in the Peaceful Uses of Nuclear Energy Between the United States and the European Atomic Energy Community (EURATOM).

This subsequent arrangement concerns the retransfer of 303,250 kg of U.S.-origin natural uranium hexafluoride (67.6% U), 205,000 kg of which is uranium, from Cameco in Saskatoon, Saskatchewan, Canada to Urenco in Capenhurst Works, Chester, United Kingdom. The material, which is currently located at Cameco, Blind River, will be transferred to Urenco for toll enrichment at their Capenhurst UK facility. The natural uranium hexafluoride was originally obtained by Cameco from Crowe Butte Resources Inc. pursuant to export license XSOU8798.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, we have determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: March 10, 2010.

For the Department of Energy.

Anatoli Welihozkiy,

Acting Director, Office of International Regimes and Agreements.

DEPARTMENT OF ENERGY

Proposed Subsequent Arrangement

AGENCY: Office of International Regimes and Agreements, Department of Energy.

ACTION: Subsequent arrangement.

SUMMARY: This notice has been issued under the authority of Section 131 of the Atomic

Energy Act of 1954, as amended (42 U.S.C. 2160). The Department is providing notice of a proposed subsequent arrangement under the Agreement for Cooperation Concerning Civil Uses of Nuclear Energy Between the Government of the United States of America and the Government of Canada and the Agreement for Cooperation in the Peaceful Uses of Nuclear Energy Between the United States and the European Atomic Energy Community (EURATOM).

This subsequent arrangement concerns the retransfer of 302,188 kg of U.S.-origin natural uranium trioxide (UO₃) (82.73% U), 250,000 kg of which is uranium, from Cameco in Saskatoon, Saskatchewan, Canada to Springfields Fuels Ltd. in Lancashire, United Kingdom. The material, which is currently located at Cameco, Blind River, will be transferred to Springfields Fuels Ltd. for conversion to uranium hexafluoride (UF₆) for ultimate end use in a civilian nuclear power program. The UO₃ from U.S.-origin concentrates was originally obtained by Cameco from Crowe Butte Resources Inc. pursuant to export license XSOU8798.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, we have determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice.

Dated: March 11, 2010.

For the Department of Energy

Richard Goorevich,

Director, Office of International Regimes and Agreements.
