

levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely authorizes State requirements as part of the State RCRA hazardous waste program without altering the relationship or the distribution of power and responsibilities established by RCRA. This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not make decisions based on environmental health or safety risks. This rule is not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355 (May 22, 2001)) because it is not a significant regulatory action under Executive Order 12866.

Under RCRA 3006(b), EPA grants a State's application for authorization as long as the State meets the criteria required by RCRA. It would thus be inconsistent with applicable law for EPA, when it reviews a State authorization application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller

General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2). This action nevertheless will be effective 60 days after it is published, because it is an immediate final rule.

List of Subjects in 40 CFR Part 271

Environmental protection, Administrative practice and procedure, Confidential business information, Hazardous waste, Hazardous waste transportation, Indian lands, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements.

Authority: This action is issued under the authority of sections 2002(a), 3006 and 7004(b) of the Solid Waste Disposal Act as amended 42 U.S.C. 6912(a), 6926, 6974(b).

Dated: July 7, 2010.

H. Curtis Spalding,

Regional Administrator, EPA New England.

BILLING CODE 6560-50-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2010-0003]

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated in the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive

Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT:

Kevin C. Long, Acting Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2820, or (e-mail) kevin.long@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Federal Insurance and Mitigation Administrator has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

■ Accordingly, 44 CFR part 67 is amended as follows:

PART 67—[AMENDED]

■ 1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*;
Reorganization Plan No. 3 of 1978, 3 CFR,
1978 Comp., p. 329; E.O. 12127, 44 FR 19367,
3 CFR, 1979 Comp., p. 376.

§ 67.11 [Amended]

■ 2. The tables published under the authority of § 67.11 are amended as follows:

State	City/town/county	Source of flooding	Location	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL) Modified
City of Williston, North Dakota Docket No.: FEMA-B-1060				
North Dakota	City of Williston	Sand Creek	Approximately 105 feet downstream of Riverside Drive West. Approximately 2.57 miles upstream of 11th Street.	+1,852 +1,941

* National Geodetic Vertical Datum.

BILLING CODE 9110-12-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 95

[WT Docket No. 98-182; FCC 10-106]

1998 Biennial Regulatory Review—Private Land Mobile Radio Services

AGENCY: Federal Communications Commission.

ACTION: Final rule; petition for reconsideration.

SUMMARY: In this document, the Commission denies the petition filed by the Personal Radio Steering Group (PRSG) regarding certain Multi-Use Radio Service (MURS) rules. In essence, the Commission finds that PRSG has not demonstrated that the changes it seeks are necessary and are in the public interest. Accordingly, there is no change to the CFR.

DATES: Effective July 26, 2010.

FOR FURTHER INFORMATION CONTACT: B.C. "Jay" Jackson, Jr., Mobility Division, Wireless Telecommunications Bureau, jay.jackson@fcc.gov, 202-418-1309.

SUPPLEMENTARY INFORMATION: This is a summary of the Federal

Communications Commission's *Memorandum Opinion and Order on Reconsideration* (MO&O on Recon.) in WT Docket No. 98-182, FCC 10-106, adopted on June 1, 2010, and released on June 7, 2010. Contemporaneous with this document, the Commission issues a *Notice of Proposed Rule Making* (published elsewhere in this publication). The complete text of this document may be downloaded from the FCC Web site (<http://www.fcc.gov>) at http://hraunfoss.fcc.gov/edocs_public/attachmatch/FCC-10-106A1.pdf. This document and all related Commission documents is also available for inspection and copying during normal business hours in the FCC Reference Center, 445 12th Street, SW., Washington, DC 20554. A copy of the complete text may also be purchased from the Commission's copy contractor, Best Copy and Printing, Inc., 445 12th Street, SW., Room CY-B402, Washington, DC 20554. Alternative formats are available to persons with disabilities by sending an e-mail to FCC504@fcc.gov or by calling the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice), 202-418-0432 (tty).

Synopsis

1. In the *Report and Order*, 15 FCCR 16673, 16688 para. 31 (2000), in WT Docket No. 98-182, the Federal Communications Commission ("Commission") reallocated five frequencies to the newly-created Multi-Use Radio Service (MURS), a two-way, short-distance, voice, data or image communication service for the personal or business activities of the general public. In response to petitions for

reconsideration, the Commission affirmed its decision to license MURS by rule, but adopted additional technical restrictions designed to address concerns expressed by grandfathered (*i.e.*, pre-MURS) users of the five frequencies. See *Memorandum Opinion and Order (MO&O)* at 67 FR 63279, October 11, 2002, in WT Docket No. 98-182. PRSG filed a petition for reconsideration of certain aspects of the MO&O. Specifically, PRSG requests that the Commission (1) reconsider prohibiting MURS radios from interconnecting with the public switched telephone network (PSTN); (2) require MURS radios to have automatic monitoring, a feature that prevents the radio from transmitting on a channel that is already in use; and (3) revisit the grandfathering privileges extended to pre-MURS business and industrial licensees that had facilities operating on the MURS frequencies.

2. *Interconnection.* The Commission prohibited interconnecting MURS transmitters with the PSTN. It concluded that such interconnection would be inappropriate for MURS because of the limited number of channels and the importance of spectrum sharing. PRSG supports the prohibition on interconnection, but asserts that the regulatory language adopted by the Commission is imprecise and antiquated. PRSG argues that the rule should address issues such as connecting to networks other than the PSTN. No commenting party supports PRSG's request. The Commission finds that the interconnection prohibition contained in 47 CFR 95.1313 is sufficiently clear, and that no changes are needed.
