

(h) Whether the cause of death was a preexisting medical condition or a condition that developed after admission to the facility and whether the inmate received treatment for the medical condition after admission and if so, the kind of treatment received (deaths due to accidental injury, intoxication, suicide, or homicide do not apply).

(i) Whether an autopsy/postmortem exam/review of medical records to determine the cause of death of the inmate was performed and the availability of those results.

(j) The survey ends with a box in which respondents can enter notes.

(k) Confirmation or correction of the agency and agency head's name, phone number, email address, and mailing address.

(l) Confirmation or correction of the agency's primary point of contact for data collection, title, phone number, email address, and mailing address;

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Prior to 2015, DCRP clearance included deaths in the process of arrest, local jails and state prisons. The arrest-related death collection has been temporarily suspended due to data quality and coverage issues. The arrest-related death collection will seek a separate OMB clearance when work on the project begins again. In an effort to reduce burden on respondents and minimize costs associated with the ASJ and the DCRP, the ASJ will be fielded along with the DCRP beginning in early

2016. The major change to the DCRP collection is the downgrade in burden hours to account for the ARD and DCRP-jail collections no longer being a part of the clearance package. Otherwise, there are no proposed substantive changes to the DCRP-prisons collection. *DCRP-prisons (NPS-4, NPS-4A)*—There will be 50 respondents to DCRP-prisons for collection year 2015. It takes current DCRP respondents an average of 30 minutes to complete the death form and 5 minutes to complete the annual summary form, or 1,704 burden hours.

(a) *BJS collection agent also makes verification calls to prison respondents to ensure data quality.* With 50 respondents and 9 minute per call, data verification induces a burden of 8 hours.

Form	Purpose of contact	Number of data suppliers	Number of responses	Average reporting time (min)	Burden hours
NPS-4	DCRP Annual Summary	50	50	5	4
NPS-4A	DCRP death records	50	3,400	30	1,700
	ASJ-DCRP verification call	50	50	9	8
Total 2016					1,712

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated total burden hours associated with this collection for report year 2016 is 1,712.
