

Type of Review: Extension of a currently approved collection.

Abstract: Section 714.5 of NCUA's Regulations requires a federal credit union engaged in leasing to obtain or have on file financial documentation demonstrating that the guarantor of an estimated residual value has the resources to meet the guarantee. Estimated residual value is the projected future value of leased property at lease end. The accuracy of the estimated residual values used in a lease program is a fundamental element in the success or failure of a lease program. The higher the estimated residual values used by a federal credit union, the greater the potential for loss. To mitigate this risk, the leasing rule requires that if the amount of the estimated residual value relied on by the federal credit union to satisfy the full payout lease requirement exceeds 25 percent of the original cost of the leased property, the credit union must obtain a guarantee of the excess from a financially capable party. If the guarantor cannot meet its guarantee, a federal credit union may suffer serious financial loss. Accordingly, it is important that a federal credit union documents that a guarantor has the financial resources and capability to meet the guarantee. If the guarantor is an insurance company, the federal credit union may satisfy this record keeping requirement by obtaining and maintaining information demonstrating that the insurance company has a rating equivalent to a B+ or better from a major rating company.

Affected Public: Private Sector: Not-for-profit institutions.

Estimated No. of Respondents: 83.

Estimated No. of Responses per Respondent: 5.

Estimated Total Annual Responses: 415.

Estimated Hours per Response: 2.

Estimated Total Annual Burden Hours: 830.

Reason for Change: Adjustment is attributed to current updated data since the last previous submission.

By Gerard Poliquin, Secretary of the Board, the National Credit Union Administration, on June 17, 2020.

Dated: June 17, 2020.

Mackie I. Malaka,

NCUA PRA Clearance Officer.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; Grantee Reporting Requirements for National User Facilities Managed by the NSF Division of Materials Research

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the *second notice* for public comment; the first was published in the **Federal Register**, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. **DATES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Copies of the submission may be obtained by calling 703-292-7556.

SUPPLEMENTARY INFORMATION: NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title of Collection: Evaluation of the Sustainability and Diffusion of the NSF ADVANCE Program.

OMB Number: 3145-0234.

Type of Request: Revision to and extension of approval of an information collection.

Proposed Project:

The NSF Division of Materials Research (DMR) supports a number of National User Facilities that provide specialized capabilities and instrumentation to the scientific community on a competitive proposal basis. In addition to the user program, these facilities support in-house research, development of new instrumentation or techniques, education, and knowledge transfer.

The facilities integrate research and education for students and post-docs involved in experiments, and support extensive K-12 outreach to foster an interest in Science Technology Engineering and Mathematics (STEM) and STEM careers. Facilities capitalize on diversity through participation in center activities and demonstrate leadership in the involvement of groups underrepresented in science and engineering.

National User Facilities will be required to submit annual reports on progress and plans, which will be used as a basis for performance review and determining the level of continued funding. User facilities will be required to develop a set of management and performance indicators for submission annually to NSF via the Research Performance Project Reporting (RPPR) module in *Research.gov*. These indicators are both quantitative and descriptive and may include, for example, lists of successful proposal and users, the characteristics of facility personnel and students; sources of financial support and in-kind support; expenditures by operational component; research activities; education activities; knowledge transfer activities; patents, licenses; publications; degrees granted to students supported through the facility or users of the facility; descriptions of significant advances and other outcomes of this investment. Such reporting requirements are included in the cooperative agreement which is binding between the academic institution and the NSF.

Each facility's annual report will address the following categories of activities: (1) Research, (2) education and training, (3) knowledge transfer, (4) partnerships, (5) diversity, (6) management, and (7) budget issues.

For each of the categories the report will describe overall objectives and metrics for the reporting period, challenges or problems the facility has encountered in making progress towards goals, anticipated problems in the following year, and specific outputs and outcomes.

Facilities are required to file a final report through the RPPR. Final reports contain similar information and metrics

as annual reports, but are retrospective and focus on the period that was not addressed in previous annual reports.

Use of the Information: NSF will use the information to continue funding of the DMR National User Facilities, and to evaluate the progress of the program.

Estimate of Burden: 790 hours per facility for three National User Facilities for a total of 2,370 hours.

Respondents: Non-profit institutions.

Estimated Number of Responses per Report: One (1) from each of the DMR user facilities.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: June 18, 2020.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review, Request for Comments

Summary: In accordance with the Paperwork Reduction Act of 1995, the Railroad Retirement Board (RRB) is forwarding an Information Collection Request (ICR) to the Office of

Information and Regulatory Affairs (OIRA), Office of Management and Budget (OMB). Our ICR describes the information we seek to collect from the public. Review and approval by OIRA ensures that we impose appropriate paperwork burdens.

The RRB invites comments on the proposed collection of information to determine (1) the practical utility of the collection; (2) the accuracy of the estimated burden of the collection; (3) ways to enhance the quality, utility, and clarity of the information that is the subject of collection; and (4) ways to minimize the burden of collections on respondents, including the use of automated collection techniques or other forms of information technology. Comments to the RRB or OIRA must contain the OMB control number of the ICR. For proper consideration of your comments, it is best if the RRB and OIRA receive them within 30 days of the publication date.

1. Title and purpose of information collection: Application and Claim for Unemployment Benefits and Employment Service; OMB 3220-0022.

Section 2 of the Railroad Unemployment Insurance Act (RUIA) (45 U.S.C. 231), provides unemployment benefits for qualified railroad employees. These benefits are generally payable for each day of unemployment in excess of four during a registration period (normally a period of 14 days).

Section 12 of the RUIA provides that the RRB establish, maintain and operate free employment facilities directed toward the reemployment of railroad employees. The procedures for applying for the unemployment benefits and employment service and for registering and claiming the benefits are prescribed in 20 CFR part 325.

The RRB utilizes the following forms to collect the information necessary to pay unemployment benefits: Form UI-1 (or its internet equivalent, Form UI-1 (internet)), *Application for Unemployment Benefits and*

Employment Service, is completed by a claimant for unemployment benefits once in a benefit year, at the time of first registration. Completion of Form UI-1 or UI-1 (internet) also registers an unemployment claimant for the RRB's employment service.

The RRB also utilizes Form UI-3, (or its internet equivalent Form UI-3 (internet)) *Claim for Unemployment Benefits* for use in claiming unemployment benefits for days of unemployment in a particular registration period, normally a period of 14 days.

Completion of Forms UI-1, UI-1 (internet), UI-3 and UI-3 (internet) is required to obtain or retain benefits. The number of responses required of each claimant varies, depending on their period of unemployment.

Previous Requests for Comments: The RRB has already published the initial 60-day notice (85 FR 16687 on March 24, 2020) required by 44 U.S.C. 3506(c)(2). That request elicited no comments.

Information Collection Request (ICR)

Title: Application and Claim for Unemployment Benefits and Employment Service.

OMB Control Number: 3220-0022.

Forms submitted: UI-1, UI-1 (internet), UI-3, UI-3 (internet).

Type of request: Extension without change of a currently approved collection.

Affected public: Individuals or Households.

Abstract: Under Section 2 of the Railroad Unemployment Insurance Act, unemployment benefits are provided for qualified railroad employees. The collection obtains the information needed to determine the eligibility to and amount of such benefits for railroad employees.

Changes proposed: The RRB proposes no changes to the forms in the collection.

The burden estimate for the ICR is as follows:

UI-1	6,654	10	1,109
UI-1 (Internet)	4,357	10	726
UI-3	27,815	6	2,782
UI-3 (Internet)	42,836	6	4,284
Total	81,662	8,901

2. Title and purpose of information collection: RUIA Investigations and Continuing Entitlement; OMB 3220-0025.

Under Section 1(k) of the Railroad Unemployment Insurance Act (RUIA)

(45 U.S.C. 231), unemployment and sickness benefits are not payable for any day remuneration is payable or accrues to the claimant. Also, Section 4(a-1) of the RUIA provides that unemployment or sickness benefits are not payable for

any day the claimant receives the same benefits under any law other than the RUIA. Under Railroad Retirement Board (RRB) regulation 20 CFR 322.4(a), a claimant's certification or statement on an RRB-provided claim form, that he or
