

of the private property, the Applicant is proposing to extend Tranquility Road by adding approximately 250 feet of road length. The extensions would have a minimum 24-foot wide running surface. The road access associated with this alternative would merge into the current entrance to the Ski Area at the junction with Highway 160. Utility corridors to the east and the north of the approximately 2,350-foot access road would include buried electrical transmission lines, television and communication cables, fiber-optic lines, and other utilities. An additional 1,000-foot long, 20-foot wide utility corridor from Highway 160 to the northwest section of the private property is also proposed. Public access across the private property on FSR 391 would remain unchanged from the current USFS management conditions.

Snow Shed—East Village Access Alternative: The Snow Shed—East Village Access Alternative would authorize the construction and use of an access road and three utility corridors that begin on Highway 160, at a point approximately 0.33 mile east of the current entrance to the Ski Area and approximately 0.25 mile west of the Snow Shed. Utility corridors alongside the approximately 1,500-foot access road would include buried electrical transmission lines, television and communication cables, fiber-optic lines, and other utilities. Public access across private lands on FSR 391 would remain unchanged from the current management conditions.

Dual Access Road Alternative: This alternative provides two access roads to the private property and utility corridors associated with those roads. This alternative would be a combination of Alternative 2 (Proposed Action) and the first 750 feet of Alternative 3 (from Highway 160 to the northwestern boundary of the private property). Public access across private lands on FSR 391 would remain unchanged from the current management conditions.

After the end of the public comment period, the USFS will consider and respond to the comments received, revise the Draft EIS as appropriate, and issue the Final EIS. The USFS will consider the analysis in the Final EIS, along with other information, in making a decision on the request for authorized use of the access road(s) and corridor(s).

Comments Requested

The Notice of Availability published by the Environmental Protection Agency on October 8, 2004 initiated the public comment process that guides the development of the Final EIS. The USFS invites written comments and

suggestions on the proposed action and alternatives, including any issues to consider, as well as any concerns relevant to the analysis. Pursuant to 30 CFR 215.13(b), only those individuals or organizations who submitted substantive comments during the comment period may file an appeal.

Comments received in response to this notice, including names and addresses of those who comment, will be considered part of the public record on this Proposed Action and will be available for public inspection. If you wish to withhold your name or street address from public review or from disclosure under the *Freedom of Information Act* (FOIA), you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law, but persons requesting such confidentiality should be aware that under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The USFS will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days. All submissions from organizations and business, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision pursuant to 36 CFR part 215. Comments and USFS responses will be addressed in the Final EIS.
