

engineering workforce. The study is one of three components Scientists and Engineers Statistical Data System (SESTAT). NSF uses this information to prepare Congressionally mandated reports such as Science and Engineering Indicators and Women, Minorities and Persons with Disabilities in Science and Engineering.

Description of Respondents:

Individuals.

Number of Respondents: 21,600.

Frequency of Responses: Biennial reporting.

Total Burden Hours: 9,000.

Title: National Survey of College Graduates.

OMB Control Number: 3145-0141.

Summary of Collection: The Bureau of the Census, as in the past, will conduct this study for NSF. Questionnaires will be mailed in April 2006 and nonrespondents to the mail questionnaire will receive computer assisted telephone interviewing. The survey will be collected in conformance with the Privacy Act of 1974 and the individual's response to the survey is voluntary. The first federal register notice for this survey was 70 FR 49321, published August 23, 2005, and one comment was received.

Comment: On August 23, 2005, NSF published in the **Federal Register** (70 FR 49321) a 60-day notice of its intent to request renewal of this information collection authority from OMB. In that notice, NSF solicited public comments for 60 days ending October 24, 2005. One comment was received from the public notice. The comment came from B. Sachau of Floram Park, NJ, via e-mail on August 23, 2005. Ms. Sachau objected to the information collection.

Ms. Sachau had no specific suggestions for altering the data collection plans other than to discontinue them entirely.

Response: NSF responded to Ms.

Sachau on November 22, 2005, describing the program, and addressing the frequency and the cost issues raised by Ms. Sachau. NSF believes that because the comment does not pertain to the collection of information on the required forms for which NSF is seeking OMB approval, NSF is proceeding with the clearance request.

Need and Use of the Information: The purpose of this longitudinal study is to provide national estimates on the experienced science and engineering workforce and changes in employment, education and demographic characteristics over time. The study is the third component of the Scientists and Engineers Statistical Data System (SESTAT). NSF uses this information to prepare Congressionally mandated reports such as Science and Engineering Indicators and Women, Minorities and Persons with Disabilities in Science and Engineering. A public release file of collected data, edited to protect respondent confidentiality, will be made available to researchers on CD-ROM and on the World Wide Web.

Description of Respondents: Individuals.

Number of Respondents: 61,200.

Frequency of Responses: Biennial reporting.

Total Burden Hours: 25,500.

Dated: December 23, 2005.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

Application for a License To Export High-Enriched Uranium

Pursuant to 10 CFR 110.70(b)(2) "Public notice of receipt of an application," please take notice that the Nuclear Regulatory Commission has received the following request for an export license. Copies of the request can be accessed through the Public Electronic Reading Room (PERR) link <http://www.nrc.gov/reading-rm/adams.html> at the NRC Homepage.

A request for a hearing or petition for leave to intervene may be filed within 30 days after publication of this notice in the **Federal Register**. Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner upon the applicant, the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington DC 20555; the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555; and the Executive Secretary, U.S. Department of State, Washington, DC 20520.

In its review of the application for a license to export special nuclear material as defined in 10 CFR Part 110 and noticed herein, the Commission does not evaluate the health, safety or environmental effects in the recipient nation of the material to be exported. The information concerning the application follows.

NRC EXPORT LICENSE APPLICATION FOR HIGH-ENRICHED URANIUM

Name of applicant date of application date received application number docket number	Material type	End use	Country of destination
DOE/NSA—Y12 November 30, 2005. December 6, 2005, XSNM03427 11005591.	High-Enriched Uranium	The material is to be exported to Chalk River Laboratories in Canada, and used to fabricate targets needed to produce medical isotopes.	Canada

For The Nuclear Regulatory Commission.

Dated this 19th day of December 2005 at Rockville, Maryland.

Margaret M. Doane,

Deputy Director, Office of International Programs.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-266 AND 50-301]

Nuclear Management Company, LLC Point Beach Nuclear Plant, Units 1 and 2; Notice of Issuance of Renewed Facility Operating License Nos. DPR-24 and DPR-27 for an Additional 20-Year Period

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Renewed Facility Operating License Nos. DPR-24 and DPR-27 to Nuclear Management Company, LLC (licensee), the operator of the Point Beach Nuclear Plant (PBNP), Units 1 and 2. Renewed Facility Operating License No. DPR-24 authorizes operation of PBNP, Unit 1, by the licensee at reactor core power levels not in excess of 1540 megawatts thermal (516 megawatts electric), in accordance with the provisions of the PBNP renewed license and its technical specifications. Renewed Facility Operating License No. DPR-27 authorizes operation of PBNP, Unit 2, by the licensee at reactor core power levels not in excess of 1540 megawatts thermal (516 megawatts electric), in accordance with the provisions of the PBNP renewed license and its Technical Specifications.

PBNP Units 1 and 2 are pressurized water reactors located in Two Rivers, Wisconsin. The licensee's application for the renewed licenses complied with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. As required by the Act and the Commission's regulations in 10 CFR Chapter 1, the Commission has made appropriate findings, which are set forth in each license. Prior public notice of the action involving the proposed issuance of the renewed licenses and of an opportunity for a hearing regarding the proposed issuance of the renewed licenses was published in the **Federal Register** on April 13, 2004 (69 FR 19559).

For further details with respect to this action, see (1) Nuclear Management Company, LLC's license renewal application for Point Beach Nuclear Plant, Units 1 and 2, dated February 25,

2004, as supplemented by letters dated through August 23, 2005; (2) the Commission's safety evaluation report (NUREG-1839), published in December 2005; and (3) the Commission's final environmental impact statement (NUREG-1437, Supplement 23), published in August 2005. These documents are available at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, and can be viewed from the NRC Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>.

Copies of Renewed Facility Operating License Nos. DPR-24 and DPR-27 may be obtained by writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Director, Division of License Renewal. Copies of the Point Beach Nuclear Plant, Units 1 and 2 safety evaluation report (NUREG-1839) and the final environmental impact statement (NUREG-1437, Supplement 23) may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22161 (<http://www.ntis.gov>), 703-605-6000, or Attention: Superintendent of Documents, U.S. Government Printing Office, P.O. Box 371954 Pittsburgh, Pennsylvania, 15250-7954 (<http://www.gpoaccess.gov>), 202-512-1800. All orders should clearly identify the NRC publication number and the requestors Government Printing Office deposit account number or a VISA or MasterCard number and expiration date.

Dated at Rockville, Maryland, this 22nd day of December 2005.

For The Nuclear Regulatory Commission.

Pao-Tsin Kuo,

Deputy Director, Division of License Renewal, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-1151]

Notice of License Renewal Request of Westinghouse Electric Company, Columbia, SC, and Opportunity To Request a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of license renewal application, and opportunity to request a hearing.

DATES: A request for a hearing must be filed by February 27, 2006.

FOR FURTHER INFORMATION CONTACT:

Mary Adams, Senior Project Manager, Fuel Cycle Facilities Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-7249; fax number: (301) 415-5955; e-mail: mta@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) has received, by letter dated September 29, 2005, a license renewal application from Westinghouse Electric Company (WEC), requesting renewal of License No. SNM-1107 at its Columbia Fuel Fabrication Facility site located in Columbia, South Carolina. License No. SNM-1107 authorizes the licensee to possess and use special nuclear material for the manufacture of fuel for nuclear power plants.

The Columbia Fuel Fabrication Facility has been licensed by the Atomic Energy Commission and its successor, the NRC, to manufacture low-enriched uranium fuel for nuclear power plants. The license was renewed in 1995 for a period of 10 years, expiring on November 30, 2005. By applications dated September 29 and October 5, 2005, WEC requested renewal of their license for a period of 20 years. The NRC will review the license renewal application for compliance with applicable sections of regulations in Title 10 of the Code of Federal Regulations (10 CFR)—Energy, Chapter I—Nuclear Regulatory Commission. The license renewal application included an Environmental Report (Enclosure 4 to the license renewal application), which the NRC will review and use to prepare an environmental assessment to assist in the NRC's determination on the license renewal application, as required by 10 CFR part 51, Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions, and the National Environmental Policy Act.

An NRC administrative review, documented in a letter to WEC dated November 2, 2005 (ML052980594), found the application acceptable to begin a technical review. Because WEC filed the application for renewal not less than 30 days before the expiration of the date stated in the existing license, the existing license will not expire until the Commission makes a final determination on the renewal application, in accordance with the timely renewal provision of 10 CFR 70.38(a)(1). If the NRC approves the renewal application, the approval will be documented in NRC License No. SNM-1107. However, before approving
