SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-102814; File No. SR-ICC-2025-005]

Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Filing of Proposed Rule Change Relating to ICC's Treasury Operations Policies & Procedures

April 10, 2025.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934,¹ and Rule 19b-4 thereunder,² notice is hereby given that on April 2, 2025, ICE Clear Credit LLC ("ICC" or "ICE Clear Credit") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which Items have been prepared primarily by ICC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The principal purpose of the proposed rule change is to revise the ICC Treasury Operations Policies & Procedures (the "Treasury Policy"). These revisions do not require any changes to the ICC Clearing Rules (the "Rules").³

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ICC included statements concerning the purpose of and basis for the proposed rule change, security-based swap submission, or advance notice and discussed any comments it received on the proposed rule change, security-based swap submission, or advance notice. The text of these statements may be examined at the places specified in Item IV below. ICC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.

(A) Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

ICE Clear Credit is proposing to amend its Treasury Policy. The purpose of the Treasury Policy is to articulate the policies and procedures used to support the ICC Treasury Department (the "Treasury Department"), which is responsible for daily cash and collateral management of margin and guaranty fund assets. The proposed changes formalize ICC's intraday margin call procedures in the Treasury Policy to formally document ICC's intraday margin call procedures consistent with the requirements of Rule 17Ad-22(e)(6)(ii).⁴ Such changes would not modify ICC's intraday margin call practices but instead promote transparency by formally documenting a description of such intraday margin call practices. ICC believes that such revisions will facilitate the prompt and accurate clearance and settlement of securities transactions and derivative agreements, contracts, and transactions for which it is responsible. ICC proposes to make such changes effective following Commission approval of the proposed rule change. The proposed revisions are described in detail as follows.

ICC proposes to formalize its current intraday margin call procedures by adding a description of such procedures as 'Appendix 6: Intraday Margin Call Procedures' ("Appendix 6") to the Treasury Policy. Appendix 6 contains a description of the three types of intraday margins calls recognized by ICC,⁵ specifically Non-routine Intraday

Margin Calls, Selective Intraday Margin Call, and Discretionary Margin Calls.

With respect to Non-routine Intraday Margin Calls, proposed Appendix 6 contains a description of this category of intraday margin calls and details procedures followed by the ICC Risk Department in the event of a Non-routine Intraday Margin Call. Non-routine Margin Calls are considered if the market suddenly becomes highly volatile and the observed price/spread level changes increase the risk exposure of ICC to certain Clearing Participants. Non-routine Intraday Margin Calls are triggered if a certain percentage of the value of collateral on deposit has eroded due to the observed intraday unrealized losses. Procedures relevant to Non-routine Margin Calls included in Appendix 6 are summarized below:

- ICC utilizes its intraday system to capture intraday prices and re-value Clearing Participant portfolios to estimate the unrealized profit/loss.
- Compare the unrealized profit/loss to collected Initial Margin ("IM") requirement, excluding funds attributed to the concentration charges.

- If any Clearing Participant's IM erodes by a specified early warning percentage, the ICC Risk Department will begin the initial warning process to (i) notify the relevant ICC departments, and (ii) notify the affected Clearing Participant(s) that their unrealized losses are approaching the IM erosion threshold that could trigger an intraday margin call (described below). In such initial warning to affected Clearing Participant(s), the ICC Risk Department has the option of communicating the current level of IM erosion to such Clearing Participant(s).

- Following such initial warning process, the ICC Risk Department will identify the risk factors associated with the affected Clearing Participant's greatest unrealized losses and will confirm the viability of all adverse price changes in such Clearing Participant portfolios. Following confirmation of price viability, the ICC Risk Department will begin/continue continuous intraday monitoring.

- If any Clearing Participant's IM erodes by a specified IM erosion threshold and such erosion lasts for more than a specified period of time, ICC will initiate the intraday margin call process (subject to the qualification described below) which is described in further detail below.

- Notwithstanding the erosion of a Clearing Participant's IM beyond the IM erosion threshold, should such triggering event occur later in the day, the ICC chief risk officer ("CRO") (or his or her designee) has the discretion on

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ Capitalized terms used but not defined herein have the meanings specified in the Treasury Policy

or, if not defined therein, the ICE Clear Credit Rules (the "Rules").

⁴ 17 CFR 240.17-22ad(e)(6)(ii) [SIC].

⁵ Appendix 6 also includes a description of a fourth category of intraday margin calls—"Routine Margin Calls" which are not utilized by ICC.
