

SUPPLEMENTARY INFORMATION:

A. Purpose

The FAR clause at 48 CFR 52.236-13 Accident Prevention requires Federal construction contractors to keep records of accidents incident to work performed under the contract that result in death, traumatic injury, occupational disease or damage to property, materials, supplies or equipment. Records of personal inquiries are required by OSHA (OMB Control No. 1220-0029). The FAR requires records of damage to property, materials, supplies or equipment to provide background information when claims are brought against the Government.

If the contract involves work of a long duration, the contractor must submit a written proposal for implementation of the clause. The Accident Prevention Plan, for projects that are hazardous or of long duration, is analyzed by the contracting officer along with the agency safety representatives to determine if the proposed plan will meet the requirement of the safety regulations and applicable statutes. The records maintained by the contractor are used to evaluate compliance and may be used in workmen's compensation cases. The Accident Prevention Plan is placed in the contract file for reference.

SUPPLEMENTARY INFORMATION:

A. Purpose

When the Government awards a cost-reimbursement construction contract, the contractor must submit to the contracting officer and keep current a chart showing the general executive and administrative organization, the personnel to be employed in connection with the work under the contract, and their respective duties. The chart is used in administration of the contract and as an aid in determining cost. The chart is used by contract administration personnel to assure the work is being properly accomplished at reasonable prices.
