**ACTION:** Notice of Intent to prepare a recovery plan; request for information.

**SUMMARY:** NMFS is required by the Federal Endangered Species Act of 1973 (ESA), as amended to develop plans for the conservation and survival of Federally listed species, i.e., recovery plans. NMFS is announcing its intent to prepare a recovery plan for the Central California Coast coho salmon (*Oncorhynchus kisutch*) Evolutionarily Significant Unit (CCC coho salmon ESU) and requests information from the public.

**SUPPLEMENTARY INFORMATION:** NMFS is charged with the recovery of Pacific salmon and steelhead species listed under the ESA. The recovery planning process is guided by the statutory language of section 4(f) of the ESA and NMFS policies. Recovery is the use of all methods and procedures which are necessary to bring any endangered species or threatened species to the point at which the measures provided pursuant to the ESA are no longer necessary. The ESA specifies that recovery plans must include: (1) a description of management actions as may be necessary to achieve the plan's goals for the conservation and survival of the species; (2) objective, measurable criteria which, when met, would result in the species being removed from the list; and (3) estimates of time and costs required to achieve the plan's goal and

the intermediate steps towards that goal. Section 4(f) of the ESA, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. NMFS is hereby soliciting relevant information on CCC coho salmon ESU populations and their freshwater/marine habitats.

NMFS will work closely with the California Department of Fish and Game to integrate, where appropriate, the recently developed and State-approved February 2004 Recovery Strategy for California Coho Salmon with the Federal Recovery Plan. Workshops during recovery plan development will be noticed across the range of the CCC coho salmon ESU and, upon completion, the draft Recovery Plan will be available for public review and comment through publication in the **Federal Register**. NMFS requests relevant information from the public that should be considered by NMFS during preparation of the draft recovery plan.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

In the Memorandum of Understanding (MOU) between the Governments of the United States of America and the People's Republic of China concerning Trade in Textile and Apparel Products, signed and dated November 8, 2005, and Paragraph 242 of the *Report of the Working Party for the Accession of China to the World Trade Organization*, the Governments of the United States and China established agreed levels for certain cotton, wool, man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in China and exported to the United States during three one-year periods beginning on January 1, 2006 and extending through December 31, 2008.

In addition, the United States and China established an Electronic Visa Information System (ELVIS) Arrangement, in accordance with Annex III of the MOU.

The agreed levels are effective on January 1, 2006. These agreed levels may be adjusted during the course of the year for "carryforward" under the terms of the MOU.

Baby socks in HTS numbers 6111.20.6050, 6111.30.5050 and 6111.90.5050 shall be counted in dozen pairs for quota and ELVIS purposes. These baby socks are subject to the quota level for 332/432/632-T and the sublevel for 332/432/632-B but the correct category designation 239 will be required at the time of entry for quota and ELVIS purposes.

In the letter published below, the Chairman of CITA directs the Commissioner, U.S. Customs and Border Protection (CBP), to establish the 2006 limits. This arrangement provides for electronic transmission of visa information to CBP by the Government of China for textile products exported to the United States which describes the shipment and includes the visa number assigned to the shipment. The transmission certifies the country of origin and authorizes the shipment to be charged against any applicable quota. The Government of China is required to issue an ELVIS transmission for shipments of certain textile products, produced or manufactured in China and

exported on or after January 1, 2006. The United States recognizes that China shall be free to issue additional documents, such as paper visas or certificates of origin. While the additional documents will not be a requirement of entry into the United States, CBP may review these documents on a case-by-case basis.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (refer to the Office of Textiles and Apparel Web site at <http://otexa.ita.doc.gov>).

Should a category, including a merged category, or part category, be added to or modified in the MOU, the additional or modified category shall also be included in the coverage of this arrangement.

Baby socks in HTS numbers 6111.20.6050, 6111.30.5050 and 6111.90.5050 shall be counted in dozen pairs for quota and ELVIS purposes. These baby socks are subject to the quota level for 332/432/632-T and the sublevel for 332/432/632-B but the correct category designation 239 will be required at the time of entry for quota and ELVIS purposes.

An ELVIS message must accompany each commercial shipment of the aforementioned textile products.

**A. Each ELVIS message will include the following information:**

i. The visa number. The visa number shall be in the standard nine digit letter format, beginning with one numeric digit corresponding to the last digit of the year of export, followed by the two character alpha country code specified by the International Organization for Standardization (ISO) (the code for China is "CN"), and ending with a six digit numerical serial number identifying the shipment; e.g., 6CN123456. The first digit after the ISO code should not be a "9".

ii. The date of issuance. The date of issuance shall be the day, month and year on which the visa was issued.

iii. The correct category(s), part category(s), merged category(s), quantity(s) and unit(s) of quantity in the shipment as set forth in the U.S. Department of Commerce Correlation and in the Harmonized Tariff Schedule of the United States, annotated or successor documents. e.g., "Cat 340/640-510 dz. ". Products covered by a merged agreed level must be accompanied by either a transmission referring to the merged category or by a transmission referring to the specific category corresponding to the actual shipment (e.g., if the shipment consists of both Category 340 and Category 640 merchandise, it may be transmitted as "340/640", if the shipment consists solely of Category 340 merchandise, it may be transmitted as "Category 340", but not as "Category 640"). Quantities must be stated in whole numbers. Decimals or fractions will not be accepted.

iv. The manufacturer ID number (MID). The MID shall begin with "CN" followed by the first three characters from each of the first two words (of the English rendition) of the

name of the entity performing the origin-conferring operations, followed by the largest number on the address line of the entity up to the first four digits, followed by the first three letters from the city name where the entity is located.

**B. Entry of a shipment shall not be permitted:**

i. if an ELVIS transmission has not been received for the shipment from China;

ii. if the ELVIS transmission for that shipment is missing any of the following:

- a. visa number
- b. category, part category, or merged category

c. quantity

d. unit of quantity

e. date of issuance

f. manufacturer ID number

iii. if the ELVIS transmission for the shipment does not match the information supplied by the importer or the Customs broker acting as an agent on behalf of the importer with regard to any of the following:

- a. visa number
- b. category, part category, or merged category

c. unit of quantity

iv. if the quantity being entered is greater than the quantity transmitted.

v. if the visa number has previously been used, except in the case of a split shipment, or canceled.

**C. A new, correct ELVIS transmission from China is required before a shipment that has been denied entry for one of the circumstances mentioned in paragraph B.i-v will be released.**

D. If the quantity in the ELVIS transmission is greater than that of the shipment, the United States shall permit entry and shall charge only the amount entered against any applicable level.

E. Shipments will not be released for forty-eight hours or 2 calendar days in the event of a system failure. If system failure exceeds forty-eight hours or 2 calendar days, for the remaining period of the system failure, CBP will only release shipments on the basis of the visa data provided by the Ministry of Commerce. If the Ministry of Commerce is able to provide that data by some means other than an ELVIS transmission. The Ministry of Commerce shall promptly retransmit all data that was affected by the system failure when the system is functioning normally.

F. If a shipment from China has been allowed entry into the commerce of the United States with an incorrect ELVIS transmission, or no ELVIS transmission, and the importer does not comply with a CBP request to redeliver the shipment to CBP, CBP will charge the correct quantity and category of the shipment against the appropriate agreed level.

**Other Provisions.**

A. The date of export is the actual date the merchandise finally leaves the country of origin. For merchandise exported by carrier, this is the day on which the carrier last departs the country of origin.

B. Merchandise imported for the personal use of the importer and not for resale,

regardless of value, and properly marked commercial sample shipments valued at U.S.\$800 or less, do not require an ELVIS transmission for entry and shall not be charged to agreement levels.

In carrying out the above direction, the Commissioner should construe the term "customs territory of the United States" to include only the 50 States, the District of Columbia and Puerto Rico. CITA has determined that this action falls within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Philip J. Martello,
