

available, the application that is being expressly abandoned; (iii) provide a statement certifying that applicant has not filed petitions in more than fourteen other applications requesting special status under this program; and (iv) provide a statement that applicant agrees to make an election without traverse in a telephonic interview if the Office determines that the claims of the application to be made special are directed to two or more independent and distinct inventions (*see* 35 U.S.C. 121, 37 CFR 1.141–142). If the examiner cannot reach the applicant after a reasonable effort or applicant refuses to make an election in a telephonic interview, the examiner will treat the first claimed invention as constructively elected without traverse for examination. In addition, the USPTO will accord special status for examination under the Patent Application Backlog Reduction Stimulus Plan to only the first 10,000 applications that meet the requirements of the Patent Application Backlog Reduction Stimulus Plan.

For the purpose of the certification that applicant has not filed petitions in more than fourteen other applications requesting special status under this program, any application that is assigned to or subject to an obligation to assign to an entity or is owned by that entity for which a petition under this program has been filed is considered to be a petition filed by applicant. Thus, the certification that applicant has not filed petitions in more than fourteen other applications requesting special status under this program is based upon ownership.

The procedure specified in the *Backlog Reduction Notice* and this notice is applicable to applicants having multiple applications currently pending before the USPTO and who are willing to expressly abandon one application to have another application accorded special status for examination. The USPTO appreciates that there are applicants who are willing to expressly abandon an application, but who have only a single application pending before the USPTO or no application for which special status for examination is desired. Applicants are reminded that 37 CFR 1.138(d) provides a procedure by which an applicant may obtain a refund of the search fee and excess claims fee paid in an application by submitting a petition (requires no fee) and letter of express abandonment. *See* MPEP § 711.01. The procedure set forth in 37 CFR 1.138(d), however, is applicable only to applications filed under 35 U.S.C. 111(a) on or after December 8, 2004.

Applicants are cautioned to exercise care in filing a letter of express abandonment in an application. The USPTO cannot revive an application once the letter of express abandonment is recognized by the USPTO because the application was expressly and intentionally abandoned by the applicant. *See* MPEP §§ 711.01 and 711.03(c).

The procedure for petition under 37 CFR 1.102 to make an application special specified in the *Backlog Reduction Notice* and this notice is being adopted on a temporary basis until December 31, 2010. For a petition under 37 CFR 1.102 to be granted under the procedure specified in this notice, the petition under 37 CFR 1.102 and the letter of express abandonment and its accompanying statement must be filed on or before December 31, 2010, and must be among the first 10,000 applications accorded special status for examination under the Patent Application Backlog Reduction Stimulus Plan.

The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226). Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.
