SUPPLEMENTARY INFORMATION:

Additions

On May 24, June 21, June 28, and July 5, 2002, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (67 FR 36567 42235, 43582, and 44808) of proposed additions to the Procurement List.

The Following Comments Pertain to CD-ROM Replication—Program A890–M

Comments were received from one of the two current contractors for this CD-ROM replication program, in response to a request for sales data. In addition to providing the sales data, the contractor indicated that losing the contract for this replication program would remove the sales volume needed for the company to make a profit. The contractor claimed to have lost the contract for another Government Printing Office (GPO) CD-ROM replication program to the same nonprofit agency under the Committee's program, and raised the possibility of losing a third program the same way. All these impacts, according to the contractor, would combine to cause severe financial impact and job loss for the contractor.

In a follow-up letter, the contractor raised several issues which it contended made this CD-ROM replication program inappropriate for addition to the Committee's program. The contractor contended that the manufacturing process is not suitable for people who are blind or have other severe disabilities and is actually dangerous for such people. The contractor stated that the replication program is designed for multiple contractors, with volume and turnaround demands that make it inappropriate for any one contractor, particularly a small operation like the designated nonprofit agency. The contractor further noted that GPO rules prohibit subcontracting of the manufacturing operation. Finally, the contractor proposed that the nonprofit agency devote its efforts to production of blank CD-R disks for the Government rather than CD-ROM replication programs, as these disks are produced by large multinational companies which would not be as severely affected by losing this work as would the commenting contractor if the CD-ROM replication program at issue were added to the Committee's Procurement List.

In regard to the contractor's impact claims, the contractor was not the current contractor at the time the Committee added the other CD-ROM replication program to the Procurement List. Because the contractor lost the contract to another vendor, it only had a hope of regaining it through the competitive process, and losing this hope is not considered severe adverse impact by the Committee. However, even if the value of the contractor's former contract for the other replication program were to be added to the value of its contract for the replication program at issue in this Procurement

List addition, the percentage of the contractor's total sales which the two contracts represent does not reach the level of impact which the Committee normally considers to be severe.

The Committee is not processing the third replication program mentioned by the contractor for addition to the Procurement List at this time. Consequently, the only impact which the Committee's program can take into account in calculating impact on the contractor is that of the A890–M CD-ROM replication program which is being added to the Procurement List by this notice. The sales which the contractor will lose because of this action are well below the level which the Committee normally considers to constitute severe adverse impact on a contractor. The Committee staff, acting through the cognizant central nonprofit agency, has conferred with GPO contracting personnel and the designated nonprofit agency about the issues raised in the contractor's follow-up letter. Both organizations are satisfied that the nonprofit agency can meet the volume and turnaround requirements of this replication program, without resorting to a subcontractor. The nonprofit agency has modified the replication equipment to allow it to be used safely by people with visual impairments, and is successfully using people with visual impairments in all phases of CD-ROM production, order fulfillment, and packaging except disk printing, which it will be able to do safely in-house by January 2003. The equipment which the nonprofit agency has is not suitable for production of blank CD-R disks, so the contractor's alternative proposal would not be feasible.

The Following Material Pertains to All of the Items Being Added to the Procurement List

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and services and impact of the additions on the current or most recent contractors, the Committee has determined that the products and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small

organizations that will furnish the products and services the Government.

2. The action will result in authorizing small entities to furnish the products and services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the products and services proposed for addition to the Procurement List.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

AGENCY: U.S. Census Bureau.

Title: Annual Retail Trade Survey.

Form Number(s): SA-44, SA-44A, SA-44C, SA-44E, SA-44N, SA-44S, SA-45, SA-45C, & SA-721.

Agency Approval Number: 0607-0013.

Type of Request: Revision of a Currently Approved Collection.

Burden: 9,299 hours.

Number of Respondents: 22,977.

Avg Hours Per Response: 24 minutes.

Needs and Uses: The Annual Retail Trade Survey (ARTS) provides the only continuing official measure of annual total retail sales, e-commerce sales, end-of-year inventories, sales/inventory ratios, purchases, inventory valuation methods, gross margin, and end-of-year accounts receivables for retailers and annual sales and e-commerce sales for accommodation and food services firms in the United States.

The data collected in the annual retail survey provide a current statistical picture of the retail and food services and accommodations portions of consumer activity. Also, the estimates compiled from this survey provide valuable information for economic policy decisions and actions by government and are widely used by private businesses, trade organizations, professional associations, and others for market research and analysis. The sales and receipts are used by the Bureau of Economic Analysis (BEA) in determining the consumption portion of the Gross Domestic Product (GDP).

Our last request included a total of seven report forms: the SA-44, SA-44A, SA-45, SA-44C, SA-45C, & SA-721 with one supplemental form the SA-44N. The SA-44N included only additional questions asked exclusively of non-store retailers, office supply companies, and computer stores. This request is for the clearance of nine similar report forms, the SA-44, SA-44A, SA-44C, SA-44E, SA-44N, SA-44S, SA-45, SA-45C, & SA-721. The two new forms, the SA-44E and SA-44S, as well as the SA-44N, incorporate those additional questions included originally on the supplemental form of our last request. These nine forms will enable us to collect information on a North American Industry Classification System (NAICS) basis and to request similar data items. A variety of forms are needed to address the size of the firm, its specific kind-of-business, or the data items requested.

Affected Public: Business or other for-profit.

Frequency: Annually.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C., Sections 182, 224, and 225.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: August 26, 2002.
