

NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide; Issuance, Availability

The Nuclear Regulatory Commission has issued for public comment a draft of a proposed guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

The draft guide, temporarily identified by its task number, DG-1105 (which should be mentioned in all correspondence concerning this draft guide), is titled "Procedures and Criteria for Assessing Seismic Soil Liquefaction at Nuclear Power Plant Sites." This draft guide is being developed to provide guidance to license applicants on methods acceptable to the NRC staff for evaluating the potential for earthquake-induced instability of soils resulting from liquefaction and strength degradation.

This draft guide has not received complete staff approval and does not represent an official NRC staff position.

Appendix C

(Revised February 2001)

Discount Rates for Cost-Effectiveness, Lease Purchase, and Related Analyses

Effective Dates. This appendix is updated annually around the time of the President's

budget submission to Congress. This version of the appendix is valid through the end of January, 2002. Copies of the updated appendix and the Circular can be obtained in an electronic form through the OMB home page, <http://www.whitehouse.gov/omb/circulars/index.html>. Updates of the appendix are also available upon request from OMB's Office of Economic Policy (202-395-3381), as is a table of past years' rates.

Nominal Discount Rates. Nominal interest rates based on the economic assumptions from the budget are presented below. These nominal rates are to be used for discounting nominal flows, which are often encountered in lease-purchase analysis.

NOMINAL INTEREST RATES ON TREASURY NOTES AND BONDS OF SPECIFIED MATURITIES

[In percent]

3-year	5-year	7-year	10-year	30-year
5.4	5.4	5.4	5.4	5.3

Real Discount Rates. Real interest rates based on the economic assumptions from the

budget are presented below. These real rates are to be used for discounting real (constant-

dollar) flows, as is often required in cost-effectiveness analysis.

REAL INTEREST RATES ON TREASURY NOTES AND BONDS OF SPECIFIED MATURITIES

[In percent]

3-year	5-year	7-year	10-year	30-year
3.2	3.2	3.2	3.2	3.2

Analyses of programs with terms different from those presented above may use a linear interpolation. For example, a four-year project can be evaluated with a rate equal to the average of the three-year and five-year rates. Programs with durations longer than 30 years may use the 30-year interest rate.

POSTAL RATE COMMISSION

[Docket No. R2000-1; Order No. 1305]

AGENCY: Postal Rate Commission.

ACTION: Notice and order on reconsideration of Commission's docket no. R2000-1 further opinion and recommended decision.

SUMMARY: This document informs the public that the Governors of the Postal Service have requested reconsideration of the Commission's further opinion and recommended decision in docket no. R2000-1 as it relates to the Service's revenue requirement. It invites

comments on several questions. It also sets deadlines for initial and reply comments.

DATES: Initial comments are due March 19, 2001. Reply comments are due March 26, 2001.

ADDRESSES: Send comments to the attention of Steven W. Williams, acting secretary, 1333 H Street NW., Suite 300, Washington, DC 20268-0001.

SUPPLEMENTARY INFORMATION:

A. Authority to Reconsider the Decision

39 U.S.C. 3625(f).

B. Procedural History

65 FR 79141, Dec. 18, 2000.

C. Background

On November 13, 2000 the Commission issued its initial opinion and recommended decision in docket no. R2000-1. On December 5, 2000 the Governors of the United States Postal Service accepted that recommended decision under protest and returned it for reconsideration of certain specified issues. After obtaining an explanation

from the Postal Service, comments from other participants, and reply comments from the Postal Service the Commission provided its opinion and further recommended decision addressing these issues on February 9, 2001.

On March 6, 2001 the decision of the Governors of the United States Postal Service on the further recommended decision of the Postal Rate Commission on postal rate and fee changes, docket No. R2000-1 (Governors decision) was transmitted to the Commission. The Governors decision rejects the Commission's opinion and further recommended decision and returns docket no. R2000-1 for reconsideration of the Postal Service's revenue requirement.

The Governors believe that the revenue requirement is \$69.8 billion. They forthrightly urge the Commission either to recommend rates that would generate this amount of revenue, or to provide some other recommended decision "with great expedition so that we can consider exercising our statutorily-limited modification option."

The Governors recognize that the Commission has previously found that the existing evidentiary record in docket no. R2000-1 does not support a \$69.8
