

mine. Methane and other relevant explosive gases have not been encountered at the mine.

(c) MSHA-approved permissible PAPRs are widely discontinued.

(d) Although not MSHA approved, the proposed Dräger X-plore 8700 PAPR is certified as intrinsically safe to use in explosive or dusty environments. It is approved with an intrinsically safe (IS) rating of Class I, Zone 1, AEx ib IIB T4 Gb for explosive gas environments, and Zone 21, AEx ib IIIB 135 °C Db for combustible dust environments, under standards including CAN/CSA–C22.2 No. 60079–11:14 and ANSI/UL 60079–11:13. These certifications ensure the unit's safe operation in hazardous locations where explosive gases or dusts may be present.

(e) The standards for approval of these respirators are an acceptable alternative to MSHA's standards and provide an equivalent level of protection.

(f) The alternative method will guarantee no less than the same measure of protection afforded the miners under the mandatory standard.

The petitioner proposes the following alternative method:

(a) Batteries for the Dräger X-plore 8700 PAPR shall be charged only in intake air, either on the surface or underground, and not within 150 feet of a worked-out area.

(b) Battery inspections and replacements shall be conducted in intake air, either on the surface or underground.

(c) Appropriate battery packs and chargers shall be used with Dräger X-plore 8700 PAPRs:

(1) Li-Ion "High Capacity Battery (EX)", 10.8 V, 6400mAh, P/N R59575, Um = 18 V DC for charging; or

(2) Li-Ion "Standard Capacity Battery (EX)" 10.8 V, 3350mAh, P/N R59595, Um = 18 V DC for charging.

(d) Miners shall be trained on the safe use, care, and inspection of the Dräger X-plore 8700 PAPR units.

(e) The Dräger X-plore 8700 PAPR units shall be assessed for physical damage before each use.

(f) The Dräger X-plore 8700 PAPR shall not be used if methane is at or above one percent. If methane levels are higher than one percent, equipment shall immediately be de-energized and removed from the affected areas.

(g) All qualified and affected personnel shall receive training on the terms and conditions of the proposed decision and order (PDO) granted by MSHA prior to utilizing equipment in affected areas. A record of training shall be kept and provided upon request by an authorized representative.

(h) There are no representatives of miners at Signal Peak Energy, LLC, Bull Mountains Mine No. 1. A copy of this petition has been posted on the bulletin board as of December 20, 2024.

In support of the proposed alternative method, the petitioner has also submitted: a Dräger X-plore 8700 EX Certificate of Compliance and a Dräger X-plore 8700 EX data sheet.

The petitioner asserts that the alternative method will guarantee no less than the same measure of protection afforded the miners under the mandatory standard.

### SUPPLEMENTARY INFORMATION:

#### I. Background

The Department's regulations implementing the Black Lung Benefits Act (BLBA), 30 U.S.C. 901 *et seq.*, require parties to exchange all medical information about the miner they develop in connection with a claim for benefits, including information the parties do not intend to submit as evidence in the claim. See 20 CFR 725.413. The rule helps protect a miner's health, assist unrepresented parties, and promote accurate benefit determinations. The potential parties to a BLBA claim include the benefits claimant, the responsible coal mine operator and its insurance carrier, and the Director, Office of Workers' Compensation Programs (OWCP). Under this rule, a party or a party's agent who receives medical information about the miner must send a copy to all other parties within 30 days after receipt or, if a hearing before an administrative law judge has already been scheduled, at least 20 days before the hearing. The exchanged information is entered into the record of the claim only if a party submits it into evidence.

The Department's authority to engage in information collection is specified in BLBA sections 413(b), 422(a), and 426(a). See 30 U.S.C. 923(b), 932(a), and 936(a).
