Alternative Four—No Action Alternative

Under this alternative the existing airport would be retained with no improvements. The county would not change the infrastructure of the existing airport and no extensions or associated improvements would be constructed.

In addition to this Notice of Intent, the County of Marin, California is issuing a Notice of Preparation (NOP) of a Draft Environmental Impact Report (EIR), per California Environmental Quality Act (CEQA) of 1970 Guidelines. The FAA's EIS and the County's EIR will be produced concurrently.

Public Scoping Meeting: To ensure that the full range of issues related to the proposed project are addressed and that all significant issues are identified, comments and suggestions are invited from all interested parties. A public scoping meeting will be conducted to identify any significant issues associated with the proposed project.

One (1) Public Scoping meeting for the general public will be held on August 14, 2008, at the Marin Humane Society Auditorium, 171 Bel Marin Keys Blvd, Novato, California. The meeting will be held from 6:30 p.m. to 8:30 p.m. Pacific Daylight Time (PDT). The FAA and the County will be accepting comments on the scope of both the EIS and EIR at that scoping meeting.

Written comments concerning the scope of the EIS and EIR may be mailed to the individual named above under the heading **FOR FURTHER INFORMATION CONTACT** above, and must be received no later than 5 p.m. PDT, August 29, 2008.

Questions may be directed to the individual named above under the heading, FOR FURTHER INFORMATION CONTACT.

Issued in Hawthorne, California on June 27, 2008.

Mark A. McClardy,

Manager, Airports Division, Western—Pacific Region, AWP-600.

Federal Aviation Administration

Notice of Intent To Rule on Request to Release Airport Property at the Hondo Municipal Airport, Hondo, TX

AGENCY: Federal Aviation Administration (FAA), DOT. **ACTION:** Notice of Request to Release Airport Property.

SUMMARY: The FAA proposes to rule and invite public comment on the release of

land at the Hondo Municipal Airport under the provisions of Section 125 of the Wendell H. Ford Aviation Investment Reform Act for the 21st Century (AIR 21).

DATES: Comments must be received on or before August 11, 2008.

ADDRESSES: Comments on this application may be mailed or delivered to the FAA at the following address: Mr. Mike Nicely, Manager, Federal Aviation Administration, Southwest Region, Airports Division, Texas Airports Development Office, ASW–650, Fort Worth, Texas 76193–0650.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to the Mr. Robert Herrera, City Manager, at the following address: 1600 Avenue M, Hondo, Texas 78861.

FOR FURTHER INFORMATION CONTACT: Mr. Steven Cooks Program Manager, Federal Aviation Administration, Texas Airports Development Office, ASW–650, 2601 Meacham Boulevard, Fort Worth, Texas 76193–0650, Telephone: (817) 222–5608, e-mail: *Steven.Cooks@faa.gov*, Fax: (817) 222–5989.

The request to release property may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA invites public comment on the request to release property at the Hondo Municipal Airport under the provisions of the AIR 21.

The following is a brief overview of the request:

The City of Hondo requests the release of 30.785 acres of nonaeronautical airport property. The total acreage consists of two tracts. One is a 25.783 acre tract and the second tract is a 5.002 acre tract, for a total of 30.785 acres. The land was acquired by Deed without Warranty from the United States on July 16, 1948. The property to be released will be sold to allow for future development of the airport.

Any person may inspect the request in person at the FAA office listed above under FOR FURTHER INFORMATION CONTACT.

In addition, any person may, upon request, inspect the application, notice and other documents relevant to the application in person at the Hondo Municipal Airport, telephone number (830) 426–3378.

Issued in Fort Worth, Texas on July 1, 2008.

James Michael Nicely,

Acting Manager, Airports Division. [FR Doc. E8–15552 Filed 7–10–08; 8:45 am] BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Receipt of Noise Compatibility Program and Request for Review for Meadows Field Airport, Bakersfield, CA

AGENCY: Federal Aviation Administration, DOT. **ACTION:** Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program that was submitted for Meadows Field Airport under the provisions of 49 U.S.C. 47501 et seq. (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and 14 CFR Part 150 by County of Kern, California. This program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted under 14 CFR Part 150 for Meadows Field Airport were in compliance with applicable requirements, effective January 16, 2008, 73 FR 9401. The proposed noise compatibility program will be approved or disapproved on or before December 19, 2008.

EFFECTIVE DATE: The effective date of the start of FAA's review of the noise compatibility program is June 23, 2008. The public comment period ends August 21, 2008.

FOR FURTHER INFORMATION CONTACT:

Victor Globa, Federal Aviation Administration, Los Angeles Airports District Office, P.O. Box 92007, Los Angeles, California 90009–2007, Telephone: 310–725–3637. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise compatibility program for Meadows Field Airport which will be approved or disapproved on or before December 19, 2008. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing noncompatible uses and prevent the introduction of additional noncompatible uses.

The FAA has formally received the noise compatibility program for Meadows Field Airport, effective on June 23, 2008. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 47504 of the Act. Preliminary review of the submitted material indicates that it conforms to FAR Part 150 requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before December 19, 2008.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR Part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety or create an undue burden on interstate or foreign commerce, and whether they are reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. AD comments relating to these factors, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps and the proposed noise compatibility program are available for examination at the following locations:

- Federal Aviation Administration, National Headquarters, Planning and Environmental Division, APP–400, 800 Independence Avenue, SW., Room 621, Washington, DC 20591.
- Federal Aviation Administration, Western-Pacific Region Office, Airports Division, Room 3012, 15000 Aviation Boulevard, Hawthorne, California 90261.
- Federal Aviation Administration, Los Angeles Airports District Office, 15000 Aviation Boulevard, Room 3000, Hawthorne, California 90261.
- Mr. Jack Gotcher, Meadows Field Airport, 3701 Wings Way, Suite 300, Bakersfield, California 93308.

Questions may be directed to the individual named above under the heading, FOR FURTHER INFORMATION CONTACT.

Issued in Hawthorne, California on June 23, 2008.

Mark A. McClardy,

Manager, Airports Division, AWP-600, Western-Pacific Region. [FR Doc. E8–15550 Filed 7–10–08; 8:45 am] BILLING CODE 4910–13–M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Anchorage, Alaska

AGENCY: Federal Highway Administration (FHWA), DOT. **ACTION:** Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement will be prepared for the proposed Seward Highway to Glenn Highway (Highwayto-Highway) project in Anchorage, Alaska.

FOR FURTHER INFORMATION CONTACT:

Michael Vanderhoof, Division Environmental Coordinator, Federal Highway Administration, Alaska Division, 709 West 9th Street, Room 851, Juneau, AK 99802, Phone: 907– 586–7464; Fax: 907–586–7420; e-mail: *michael.vanderhoof@dot.gov* or Jerry Ruehle, Central Region Environmental Coordinator; Alaska Department of Transportation and Public Facilities; 4111 Aviation Drive, Anchorage, AK 99502; Phone: (907) 269–0534; Fax: (907) 243–6927; e-mail: *jerry.ruehle@alaska.gov.*

SUPPLEMENTARY INFORMATION: The FHWA and the Alaska Department of Transportation and Public Facilities in cooperation with the Municipality of Anchorage, propose to improve the connection between the Seward and Glenn Highways (State Route Number 1) in Anchorage, Alaska. The facilities needing improvement are part of the National Highway System (NHS) and are designated as Interstate Highway Routes. The proposed project is identified in the adopted Anchorage Metropolitan Area Transportation Solutions' "Anchorage Bowl Long Range Transportation Plan" (LRTP) (2007). The LRTP conducted extensive public involvement and studied the existing transportation problems, planned development patterns, and resultant transportation needs in Anchorage which led to identification of the Highway-to-Highway project in the plan.

The Highway-to-Highway improvements are considered necessary to address capacity, travel demand,

safety, and system linkage to major destinations and freight mobility on the existing Seward Highway and Glenn Highway NHS routes. These NHS routes provide access to major employment centers in downtown and midtown Anchorage and major intermodal port, rail, and airport facilities. The Seward and Glenn Highway NHS routes are divided highways coming into the center of Anchorage, which transition to urban arterial streets with connecting roads, stop lights, and commercial and residential access. The urban arterial segments of the routes are characterized by high travel demand, congestion, and resulting safety issues caused by traffic levels that have exceeded the capacity of the existing arterial street network.

Alternatives under consideration include: (1) Taking no action; (2) transportation system management and transportation demand management; (3) transit; (4) connecting the Seward Highway and Glenn Highways on a new alignment; (5) upgrading the Seward Highway and Glenn Highway NHS routes on their existing alignments; and (6) multi-modal options combining elements of alternatives 2 through 5. Incorporated into and studied with the various build alternatives will be design variations of facility type, number of lanes, grade, and alignment.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this project. Coordination with **Cooperating and Participating Agencies** and the public will be conducted in accordance with Section 6002 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), 23 U.S.C. 139. A coordination plan will be prepared to describe the EIS process, identify roles and responsibilities, and explain the project schedule and key coordination points. A series of public meetings will be held in Anchorage over the course of the project. Formal scoping meetings will be held in Anchorage on July 29th and 31st 2008 and an agency scoping meeting will be held in mid-August. While the project team will take comments throughout the development of the project, formal scoping comments should be submitted within 90 days of this notice.

Additional meetings and other opportunities to provide input on the project will be provided as the project develops. A public hearing will be held on the draft EIS. The draft EIS will be available for public and agency review and comment prior to the public
