Submission for OMB review; Comment Request

Title: Statewide Automated Child Welfare Information System (SACWIS) Assessment Review Guide (SARGe).
OMB No.: 0970-0159.

Description: HHS cannot fulfill its obligation to effectively serve the nation's Adoption and Foster Care populations, nor report meaningful and reliable information to Congress about the extent of problems facing these children or the effectiveness of

assistance provided to these populations, without access to timely and accurate information. Currently, SACWIS systems support State efforts to meet the following Federal reporting requirements: the Adoption and Foster Care Analysis and Reporting System (AFCARS) required by section 479(b)(2) of the Social Security Act; the National Child Abuse and Neglect Data System (NCANDS); Child Abuse Prevention and Treatment Act (CAPTA); and the new Chafee Independence Living Program. Forty-seven States and the District of Columbia have developed or have committed to develop a SACWIS system with Federal financial participation. The purpose of these reviews is to ensure that all aspects of the project, as described in the approved Advance Planning Document, have been adequately completed, and conform to applicable regulations and policies.

To initiate a review, States will submit the completed SACWIS Assessment Review Guide (SARGe) and other documentation at the point that they have completed system development and the system is operational statewide. The additional documents submitted as part of this process should all be readily available to the State as a result of good project management.

The information collected in the SACWIS Assessment Review Guide will allow State and Federal officials to determine if the State's SACWIS system meets the requirements for title IV-E Federal financial participation defined at 45 CFR 1355.50. Additionally, other States will be able to use the documentation provided as part of this review process in their own system development efforts.

Respondents: State Title IV-E Agencies.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
