Containing 2,013.76 acres, more or less.

The area described contains approximately 2,013.76 acres located in La Paz County, Arizona. The Western Area Power Administration announced its intention to prepare an Environmental Impact Statement (EIS) and initiated a public scoping process for the Proposed Project on January 14, 2010 (75 FR 2133). The BLM is a cooperating agency for the EIS based on its consideration of a ROW application for the Proposed Project. On March 30, 2011, the BLM announced the beginning of a scoping process to solicit public comments and identify issues associated

with a proposed resource management plan (RMP) amendment being considered in conjunction with the ROW application for the Proposed Project (76 FR 17668).

The BLM is segregating the lands under the authority contained in 43 CFR 2091.3-1(e) and 43 CFR 2804.25(e) for a period of 2 years, subject to valid existing rights. This 2-year segregation period will commence on March 2, 2012. These public lands will be segregated from appropriation under the public land laws, including the mining law, but not the mineral leasing or material sales acts. This segregation will not affect valid existing rights. It has been determined that this segregation is necessary for the orderly administration of the public lands by maintaining the status quo while the BLM processes the ROW application for the Proposed Project.

The segregation period will terminate and the lands will automatically reopen to appropriation under the public land laws, including the mining laws, if one of the following events occurs: (1) Upon the issuance of a decision by the authorized officer granting, granting with modifications, or denying the application for a right-of-way; (2) Upon publication of a **Federal Register** notice of termination of the segregation; or (3) Without further administrative action at the end of the segregation provided for in this **Federal Register** notice initiating the segregation, whichever occurs first.

Any segregation made under this authority would be effective only for a period of up to 2 years. The lands to be segregated pursuant to the authority at 43 CFR 2091.3-1(e) and 2804.25(e) are identified in the legal description provided above.

**Raymond Suazo,**  
*State Director.*

**Authority:** 43 CFR 2091.3-1(e), 43 CFR 2804.25(e).

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The Native American Graves Protection and Repatriation Act (NAGPRA), requires museums to compile certain information (summaries, inventories, and notices) regarding Native American cultural items in their possession or control and provide that information to lineal descendants, likely interested Indian tribes and Native Hawaiian organizations, and the National NAGPRA Program (acting on behalf of

the Secretary of the Interior, housed in the National Park Service), to support consultation in the process of publishing notices that establish rights to repatriation. The summaries are general descriptions of the museum’s Native American collection, sent to all possibly interested tribes to disclose the collection, should the tribe desire to consult on items and present a claim. The inventories are item-by-item lists of the human remains and their funerary objects, upon which the museum consults with likely affiliated tribes to determine cultural affiliation, tribal land origination, or origination from aboriginal lands of Federal recognized tribes. Consultation and claims for items require information exchange between museums and tribes on the collections. Notices of Inventory Completion, published in the **Federal Register** indicate the museum decisions of rights of lineal descendants and tribes to receive human remains and funerary objects; Notices of Intent to Repatriate, published in the **Federal Register**, indicate the agreements of museums and tribes to transfer control to tribes of funerary objects, sacred objects and objects of cultural patrimony. Museums identify NAGPRA protected items in the collection through examination of museum records and from consultation with tribes.

The National NAGPRA Program maintains the public databases of summary, inventory and notice information to support consultation. In the first 20 years of the administration of NAGPRA approximately 40,000 Native American human remains, of a possible collection of 180,000 individuals, have been listed in NAGPRA notices. Information collection of previous years is of lasting benefit, diminishing efforts in future years.
