Abstract: Under the procedures prescribed in these revenue procedures, a dealer of a new clean vehicle or previously owned clean vehicle that wishes to partake in the advanced payment program under IRC sections 30D(g) and 25E(f) must register with the IRS through the IRS Identity Registration System and through the IRS Clean Vehicle Sales Portal. At the time of registration through the IRS Clean Vehicle Sales Portal, the dealer must provide certain information to the IRS and make certain certifications. After those are complete, the IRS will perform a tax compliance check to ensure the dealer is compliant with its tax obligations. After a taxpayer makes a transfer election under IRC sections 30D(g) or 25E(f) to the dealer, a dealer must upload certain information through the IRS Clean Vehicle Sales Portal, and the IRS, upon review, and if all conditions are met, will issue a payment to the dealer.

Qualified manufacturers who wish to have certain new clean vehicles qualify for the IRC section 30D credit in the subsequent year must submit certain information related to applicable critical minerals and battery components.

The IRS created a Clean Vehicles Sale Portal for qualified manufacturers, dealers, and sellers to register and provide the requisite information. The likely respondents are businesses and other for-profit entities.

Current Actions: There are changes to the existing collection. The IRS is revising this collection to add reporting obligations for qualified manufacturers to submit to the Department of Energy (DOE). This creates a modified collection obligation for qualified manufacturers related to applicable critical minerals and battery components. This modification provides that qualified manufacturers who wish to have certain new clean vehicles qualify for the IRC section 30D credit in the subsequent year must submit a report to the DOE that includes

supporting documentation in relation to battery components and applicable critical minerals, as well as associated constituent materials, contained in the battery from which the electric motor of the vehicle draws electricity; and submit attestations under penalty of perjury.

Type of Review: Revision of a currently approved collection.
