

A history of subsequent related actions is summarized here. The Agency issued the spirodiclofen registration review generic data call-in (GDCI–124871–1883) on May 11, 2016. Bayer CropScience requested the voluntary cancellation of spirodiclofen as an alternative to developing the required data. The two spirodiclofen registrations were transferred from Bayer CropScience to Gowan Company effective March 18, 2021, and Gowan requested that the cancellation order be amended to facilitate the submission of outstanding data identified in the GDCI before the cancellations would become effective. Based on data submitted by both Bayer and Gowan to fulfill the requirements of the DCI, EPA subsequently completed draft ecological and human health risk assessments (DRAs) for the registration review of spirodiclofen. The DRAs were published for public comment on October 29, 2021 and identified potential risks of concern associated with the use of spirodiclofen. EPA subsequently extended the effective date of cancellation to allow time for developing the proposed interim registration review decision (PID) for spirodiclofen. On April 4, 2022, EPA issued a PID addressing the human health and ecological risks of concern identified in the spirodiclofen DRAs and proposing measures to mitigate those risks. Gowan subsequently submitted an amended end-use product label that is responsive to the risk mitigation measures proposed by EPA. The comment period on the PID closed on June 6, 2022. The Agency intends to issue an Interim Decision (ID) for spirodiclofen after considering comments received on the PID. Because the cancellation order for the spirodiclofen product registrations was set to take effect on June 30, 2022, and because Gowan has acted in good faith to address the Agency's risk concerns and Gowan has submitted an amended label for the sole end-use product (EPA Registration No. 10163–383) that reflects the risk mitigation proposed by the Agency, EPA is now rescinding the cancellation order. The ID will account for any comments received on the PID as well as the amended label submitted by Gowan.

The cancellation order for EPA Registration Nos. 10163–382 and 10163–383 is hereby rescinded.

Authority: 7 U.S.C. 136 *et seq.*

Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Our Children's Earth Foundation v. Regan*, No. 3:22–cv–00695–WHA (N.D. CA). On February 2, 2022, Plaintiff Our Children's Earth Foundation filed a complaint in the United States District Court for the Northern District of California alleging that the Environmental Protection Agency (EPA or the Agency) failed to perform certain non-discretionary duties in accordance with the Act to take action on several Nevada SIP submittals by the required deadlines. The proposed consent decree would establish deadlines for EPA to take specified actions.

DATES: Written comments on the proposed consent decree must be received by July 22, 2022.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–OGC–2022–0510, online at <https://www.regulations.gov> (EPA's preferred method). Follow the online instructions for submitting comments.

II. Additional Information About the Proposed Consent Decree

The proposed consent decree would resolve a lawsuit filed by Our Children's Earth Foundation seeking to compel the Agency to approve, disapprove, or conditionally approve, in whole or in part, several Nevada SIP submittals by the required deadlines. Specifically, the proposed consent decree would require that the appropriate EPA official or officials sign a notice or notices of final rule for publication in the **Federal Register** to approve, disapprove, conditionally approve, or approve in part and conditionally approve in part: by February 28, 2023, the Nevada Infrastructure SIP for 2012 p.m. 2.5 submittal and the PM Revised Air Quality Standards and Definitions submittal; and by April 1, 2023, seven submittals revising the Clark County Air Quality Regulations portion of the Nevada SIP and the non-transport provisions of the Nevada 2015 Ozone i-SIP submittal.

On April 21, 2022 and May 19, 2022, final rules were published in the **Federal Register** approving in full, eight Nevada submittals revising the Clark County Air Quality Regulations portion

of the SIP, and Plaintiff's claims are therefore moot as to those submittals.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.
