SUPPLEMENTARY INFORMATION:

Title: Infectious Salmon Anemia; Payment of Indemnity.

OMB Number: 0579-0192.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture is authorized to prevent the interstate spread of serious diseases and pests of livestock within the United States and to eradicate such diseases and pests from the United States when feasible. In connection with this mission, APHIS established regulations in 9 CFR part 53 to pay indemnity to salmon producers in Maine whose fish are destroyed because of infectious salmon anemia (ISA).

ISA is a foreign animal disease of Atlantic salmon, caused by an orthomyxovirus. The disease affects both wild and farmed Atlantic salmon.

ISA poses a substantial threat to the economic viability and sustainability of salmon aquaculture in the United States.

In order to take part in the indemnity program, producers must enroll in the cooperative ISA control program administered by APHIS and the State of Maine. Program participants must inform the ISA Program Veterinarian in writing of the name of their accredited veterinarian; develop biosecurity protocols and a site-specific ISA action plan; submit fish inventory and mortality information; assist APHIS or State officials with onsite disease surveillance, testing, and biosecurity audits; and complete an appraisal and indemnity claim form. Payment is subject to the availability of funding.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 1.97911 hours per response.

Respondents: ISA program participants, such as certain aquaculture industry business owners, managers, site employees, accredited veterinarians, or laboratory personnel.

Estimated annual number of respondents: 16.

Estimated annual number of responses per respondent: 44.875.

Estimated annual number of responses: 718.

Estimated total annual burden on respondents: 1,421 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual

number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of July 2011.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Sea Grant Program Application Requirements for Grants, for Sea Grant Fellowships, and for Designation as a Sea Grant College or Sea Grant Institute.

OMB Control Number: 0648-0362.

Form Number(s): NOAA 90-1, NOAA 90-2, NOAA 90-4.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 162.

Average Hours per Response: 30 minutes for a Sea Grant Control form; 20 minutes for a Project Record Form; 15 minutes for a Sea Grant Budget form; and 20 hours for an application for designation as a Sea Grant college or Sea Grant institute.

Burden Hours: 857.

Needs and Uses: This request is for extension of a current information collection.

The objectives of the National Sea Grant College Program, as stated in the Sea Grant legislation (33 U.S.C. 1121-1131) are to increase the understanding, assessments, development, utilization, and conservation of the Nation's ocean, coastal, and Great Lakes resources. It accomplishes these objectives by conducting research, education, and outreach programs.

Grant monies are available for funding activities that help obtain the objectives of the Sea Grant Program. Both single and multi-project grants are awarded, with the latter representing about 80 percent of the total grant program. In addition to other standard grant application requirements, three forms are required with the grants. These are the Sea Grant Control Form 90-2, used to identify the organizations and personnel who would be involved in the grant; the Project Record Form 90-1,
