9000-0029, Extraordinary Contractual Action Requests.

B. Needs and Uses

This justification supports an extension of OMB Control No. 9000-0029. This clearance covers the information that contractors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

FAR 50.103-3, Contract Adjustment. FAR 50.103-3 specifies the minimum information that a contractor must include when seeking a contract adjustment that would facilitate the national defense, as set forth in Public Law 85-804. The request, normally a letter, shall state as a minimum—

(1) The precise adjustment requested;

(2) The essential facts, summarized chronologically in narrative form;

(3) The contractor's conclusions based on these facts, showing, in terms of the considerations set forth in FAR 50.103-1 and 50.103-2, when the contractor considers itself entitled to the adjustment; and

(4) Whether or not—

(i) All obligations under the contracts involved have been discharged;

(ii) Final payment under the contracts involved has been made;

(iii) Any proceeds from the request will be subject to assignment or other transfer, and to whom; and

(iv) The contractor has sought the same, or a similar or related, adjustment from the Government Accountability Office or any other part of the Government, or anticipates doing so.

If the request exceeds the simplified acquisition threshold, the contractor must certify that the request is made in good faith and the data are accurate and complete.

FAR 50.103-4, Facts and Evidence. FAR 50.103-4 sets forth additional information that the contracting officer or other agency official may request from the contractor to support any request made under FAR 50.103-3.

FAR 50.104-3 Special Procedures for Unusually Hazardous or Nuclear Risks. FAR 50.104-3 provides the information a contractor shall submit to the contracting officer when requesting the inclusion of the indemnification clause for unusually hazardous or nuclear risks at FAR 52.250-1.

FAR 52.250-1, Indemnification Under Public Law 85-804. This clause allows contractors to be indemnified against unusually hazardous or nuclear risks. Paragraph (g) requires the contractor to

promptly notify the contracting officer and furnish pertinent information for any claim or loss that may involve indemnification under the clause.

This information is used by the Government to determine if relief can be granted to the contractor and to determine the appropriate type and amount of relief.

SUPPLEMENTARY INFORMATION:

A. Purpose

The AIA Program actively seeks to commission works from the full spectrum of American artists and strives to promote new media and inventive solutions for public art. The GSA Form 7437, Art in Architecture Program National Artist Registry, will be used to collect information from artists across the country to participate and to be considered for commissions.

The AIA Program is the result of a policy decision made in January 1963 by GSA Administrator Bernard L. Boudin, who served on the Ad Hoc Committee on Federal Office Space in 1961-1962.

The program has been modified over the years, most recently in 2020, to align with Executive Order (E.O.) 13934 issued July 3, 2020, *Building and Rebuilding Monuments to American Heroes*. As mandated by E.O. 13934, the AIA program prioritized the commissioning of artworks that portray historically significant Americans or events of American historical significance, or that illustrate the ideals upon which the Nation was founded. Priority was to be given to public-facing monuments to former Presidents of the United States, and to individuals and events relating to the discovery of America, the founding of the United States, and the abolition of slavery. Such works of art were to be designed to be appreciated by the general public and by those who use and interact with Federal buildings. When an artwork commissioned by GSA was meant to depict a historically significant American, the artwork was required to be a lifelike or realistic representation of that person, not an abstract or modernist representation. The AIA program has been modified in 2022 to align with E.O. 14029, *Revocation of Certain Presidential Actions and Technical Amendment*, which revoked E.O. 13934, and to support the goals of E.O. 13895, *Advancing Racial Equity and Support*

for Underserved Communities Through the Federal Government.

With the implementation of the 2022 policy, the AIA program actively seeks to commission works from the full spectrum of American artists and strives to promote new media and inventive solutions for public art. In support of the AIA program's goal to commission the most talented contemporary American artists to create works for the nation's important new civic buildings, it is necessary to identify those artists. The National Artist Registry (Registry) offers the opportunity for artists across the country to participate and to be considered for commissions.

B. Annual Reporting Burden

Total Burden Hours: 75.

C. Public Comments

A 60-day notice published in the **Federal Register** as part of final rule FMR 2021-02, published at 87 FR 5711 on February 2, 2022. There were three comments received on the PRA portion of the rule.

Discussion and Analysis

Two comments offered no specific suggestions. One comment provided detailed and specific suggestions and recommendations that were primarily outside of the mission of the Art in Architecture program, and in a number of instances, duplicate work already being done by the National Endowment for the Arts. In addition, the comments were operational and are either already in place or will be addressed as part of the management of the Art in Architecture program. For example, the Registry form can now be submitted directly online via the AiA website, and the site includes information on the selection process and project timeframes.
