SUPPLEMENTARY INFORMATION: Section 1320.8(d), Title 5, Code of Federal Regulations requires PHMSA to provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This notice identifies a new information collection request that PHMSA will be submitting to OMB for approval. The information collection will be titled: "National

Registry of Pipeline and Liquefied Natural Gas Operators." PHMSA published a final rule in the **Federal Register** on November 26, 2010 (75 FR 72878), titled: "Pipeline Safety: Updates to Pipeline and Liquefied Natural Gas Reporting Requirements". That final rule added two new sections, 49 CFR 191.21 and 195.64, to the pipeline safety regulations for the establishment of a National Pipeline Safety Registry, which will be used by operators to obtain an Operator Identification (OPID) number. PHMSA is proposing to use two forms as part of this information collection. For an initial OPID number, an online form titled: "OPID Assignment (PHMSA F-1000.1)" will be used. For operators with an OPID who wish to update their information, a form titled: "Operator Registry Notification (PHMSA F-1000.2)" will be used. Copies of these forms have been placed in the docket and are available for comment. The following information is provided for this information collection: (1) Title of the information collection; (2) OMB control number; (3) Type of request; (4) Abstract of the information collection activity; (5) Description of affected public; (6) Estimate of total annual reporting and recordkeeping burden; and (7) Frequency of collection. PHMSA will request a three-year term of approval for this information collection activity.

PHMSA requests comments on the following information collection:

Title: National Pipeline Registry.

OMB Control Number: Pending.

Type of Request: New information collection.

Abstract: PHMSA is requiring each operator to have an OPID number. The OPID number will contain detailed information on the operator. In addition, PHMSA is requesting that operators provide PHMSA with update notifications for certain changes to information initially provided by the operator.

Affected Public: Pipeline Operators.

Estimated number of responses: 2,753 operators.

Estimated annual burden hours: 5,506 hours.

Frequency of collection: On occasion.

Comments are invited on:

(a) The need for the proposed collection of information for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those

who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

Issued in Washington, DC, on December 3, 2010.
