Title: Pesticide Registration Fees Program.

ICR Numbers: EPA ICR No. 2330.01, OMB Control No. 2070-new.

ICR Status: This is a new ICR that combines two currently approved ICRs. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers the paperwork burden hours and costs associated with the information collection activities under the pesticide registration fee programs. Pesticide registrants are required by statute to pay an annual registration maintenance fee for all products registered under Section 3 and Section 24(c) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). In addition, the Pesticide Registration Improvement Act (PRIA) amended FIFRA in 2004 to create a

registration service fee system for applications for specific pesticide registration, amended registration, and associated tolerance actions (FIFRA Section 33). This ICR specifically covers the activities related to both the collection of the pesticide registration fees and the submission and processing requests for the fees to be waived.

PRIA authorizes EPA to process requests for waivers of registration application fees. The ICR covers the collection activities associated with requesting a fee waiver and involves requesters submitting a waiver request, information to demonstrate eligibility for the waiver, and certification of eligibility. Waivers are available for small businesses, for minor uses, and for actions solely associated with the Inter-Regional Project Number 4 (IR-4). State and Federal agencies are exempt from the payment of fees.

FIFRA requires EPA to collect annual pesticide product registration maintenance fees from pesticides registrants. Respondents complete and submit EPA Form 8570-30 indicating the respondent's liability for the registration maintenance fee. Annually the Agency provides registrants with a list of their products currently registered with the Agency. Registrants are provided the opportunity to review the list, determine its accuracy, and remit payment of maintenance fee. The list of products has space identified for making those products to be supported and those products that are to be cancelled. The registrants are also instructed to identify any products on the list which they believe to be transferred to another company, and to add to the list any products which the company believes to be registered that are not the Agency-provided list. The failure to pay the required fee for a product will result in cancellation of that product's registration.

Burden Statement: The annual public reporting burden for this collection of information is estimated to average 3.6 hours per response. Burden is defined in 5 CFR 1320.3(b).

Respondents/Affected Entities: Persons engaged in activities related to the registration of pesticide products are identified by NAICS codes 32532 (Pesticide and other Agricultural Chemical Manufacturing), 9641 (Regulation of Agricultural Marketing and Commodities), 32518 (Other Basic Inorganic Chemical Manufacturing), and 32519 (Other Basic Organic Chemical Manufacturing).

Estimated Number of Respondents: 2,013.

Frequency of Response: On occasion or annually, as applicable.

Estimated Total Annual Hour Burden: 7,262 hours.

Estimated Total Annual Cost: \$465,635, that includes \$2,930 in Operations and Maintenance costs.

Changes in the Estimates: This is a new ICR, so there are no changes from a previous version. However, this ICR combines two existing ICRs (OMB Control No. 2070-0167 and 2070-0100) with approved burden currently in the OMB Inventory. The burden currently identified in the OMB Inventory of Approved ICR Burdens for the Pesticide Product Maintenance Fee ICR is the same, and there is a decrease in burden for the Pesticide Registration Fee Waivers ICR. The decrease is based on the shift in the distribution of responses to least burdensome-type, resulting in the lower total estimated burden.

ACTION: Notice.

SUMMARY: This notice announces EPA's approval, under regulations for Cross-Media Electronic Reporting, of the State of Hawaii's request to revise certain of its EPA-authorized programs to allow electronic reporting.

DATES: EPA's approval is effective November 15, 2010.

FOR FURTHER INFORMATION CONTACT: Evi Huffer, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 566-1697, huffer.evi@epa.gov, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes

requirements to assure that electronic documents are as legally dependable as their paper counterparts. Under subpart D of CROMERR, state, tribe or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D also provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, in § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On February 16, 2010, the State of Hawaii Department of Health (HIDOH) submitted an application for its Net Discharge Monitoring Report (NetDMR) electronic document receiving system for revision/modification of its 40 CFR part 123—National Pollutant Discharge Elimination System (NPDES) State Program Requirements and Part 403—General Pretreatment Regulations For Existing And New Sources Of Pollution EPA-authorized programs for electronic reporting of Discharge Monitoring Report (DMR) information under 40 CFR 122.41(I)(4)(i) and 403.12(d)&(e)&(h).

EPA has reviewed HIDOH's request to revise its EPA-authorized programs and, based on this review, EPA has determined that the application meets the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Hawaii's request for revision to its 40 CFR part 123—NPDES State Program Requirements and part 403—General Pretreatment Regulations For Existing And New Sources Of Pollution authorized programs for electronic reporting of discharge monitoring report information is being published in the **Federal Register**.

HIDOH was notified of EPA's determination to approve its application

with respect to the authorized programs listed above.
