Solid Urea from the Russian Federation: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On April 15, 2010, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on solid

urea from the Russian Federation. The solid urea subject to this review was produced and exported by MCC EuroChem (EuroChem). The period of review (POR) is July 1, 2008, through June 30, 2009.

Based on our analysis of comments received, we have made changes in the margin calculation for EuroChem. Therefore, the final results are different from the preliminary results. The final weighted-average dumping margin for EuroChem is listed below in the section entitled "Final Results of the Administrative Review."

EFFECTIVE DATE: August 20, 2010.

FOR FURTHER INFORMATION CONTACT:

Dustin Ross or Minoo Hatten, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0747 and (202) 482-1690, respectively.

SUPPLEMENTARY INFORMATION:

Background

On April 15, 2010, the Department published the Preliminary Results of the administrative review of the antidumping duty order on solid urea from the Russian Federation. See *Solid Urea From the Russian Federation: Preliminary Results of Antidumping Duty Administrative Review*, 75 FR 19610 (April 15, 2010) (*Preliminary Results*).

On June 30, 2010, we received case briefs from the petitioners¹ and from EuroChem. On July 12, 2010, we received rebuttal briefs from the petitioners and from EuroChem. On July 13, 2010, at the request of EuroChem, we held a public hearing.

Scope of the Order

The merchandise subject to the antidumping duty order is solid urea, a high-nitrogen content fertilizer which is produced by reacting ammonia with carbon dioxide. The product is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) item number 3102.10.00.00. Previously such merchandise was classified under item number 480.3000 of the Tariff Schedules of the United States. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise is dispositive.

¹ The Ad Hoc Committee of Domestic Nitrogen Producers and its individual urea-producing members, CF Industries, Inc., and PCS Nitrogen.

Verification

We conducted a sales verification of EuroChem's response concerning its constructed-export price sales on June 14, 2010, and June 15, 2010, at EuroChem Trading USA's facility in Florida. We did not make any changes to EuroChem's data as a result of the verification. The Department released its verification report to interested parties on June 22, 2010.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this administrative review are addressed in the "Issues and Decision Memorandum for the Antidumping Duty Administrative Review of Solid Urea from the Russian Federation for the Period of Review July 1, 2008, through June 30, 2009" (Issues and Decision Memorandum) from Edward C. Yang, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, dated concurrently with this notice, which is hereby adopted by this notice. A list of the issues which the parties have raised and to which we have responded is attached to this notice as an appendix. Parties can find a complete discussion of all issues raised and corresponding recommendations in this public memorandum, which is on file in Import Administration's Central Records Unit, Room 1117 of the main Department building. In addition, a complete version of the Issues and Decision Memorandum is available on the Internet at <http://ia.ita.doc.gov/frn/index.html>. The paper copy and electronic version of the Issues and Decision Memorandum are identical in content.

Changes Since The Preliminary Results

Based on the analysis of comments received, we have revised the appropriate date of sale for U.S. transactions from the date of sale used in the *Preliminary Results*. Specifically, we adopted the date of contract as the appropriate date of sale, rather than the date of shipment. See the Issues and Decision Memorandum at Comment 3 for a complete discussion of this issue.

Final Results of the Administrative Review

We determine that the weighted-average margin on solid urea from the Russian Federation produced and exported by EuroChem for the period July 1, 2008, through June 30, 2009, is 21.79 percent.
