

emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

I. Background and Discussion of Final Rule

We published a final rule (RIN 1029-AB40) on October 20, 1994 at 59 FR 53022. The rule revised regulations in 30 CFR parts 816 and 817. In both 30 CFR 816.49 and 817.49, OSM redesignated paragraphs (a)(8), (a)(9), and (a)(10) as (a)(9), (a)(10), and (a)(11) respectively. Redesignated paragraph (a)(9) still contains cross references to paragraphs (a)(8), (a)(8)(i) and (a)(8)(ii). Those cross references should have been revised to read (a)(9), (a)(9)(i) and (a)(9)(ii) when paragraph (a)(8) was redesignated as paragraph (a)(9). Similarly, redesignated paragraph (a)(11) contains cross references to paragraphs (a)(10)(i) and (a)(10)(iv). Those cross references should have been revised to read (a)(11)(i) and (a)(11)(iv) when paragraph (a)(10) was redesignated as paragraph (a)(11). In addition, both 30 CFR 816.49(c)(2) and
