

ICR describes the nature of the information collection and its expected burden. Specifically, the collection involves the submission of data concerning pipeline security incidents, and the cybersecurity coordinator(s) and alternate(s) contact information.

DATES: Send your comments by July 2, 2025. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” and by using the find function.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh, TSA PRA Officer, Information Technology (IT), TSA–11, Transportation Security Administration, 6595 Springfield Center Drive, Springfield, VA 20598–6011; telephone (571) 227–2062; email TSAPRA@tsa.dhs.gov.

SUPPLEMENTARY INFORMATION: TSA published a **Federal Register** notice, with a 60-day comment solicitation period, of the following collection of information on November 15, 2024, 86 FR 90305. TSA did not receive any comments on the notice.

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency’s estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: Pipeline Operator Security Information.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652–0055.

Forms(s): CISA ¹ Reporting System form.

Affected Public: Pipeline system operators.

Abstract: In addition to TSA’s broad responsibility and authority for “security in all modes of transportation” under 49 U.S.C. 114(d), TSA is statutorily required to develop and transmit to pipeline operators security recommendations for natural gas and hazardous liquid pipelines and pipeline facilities. *See* sec. 1557 of the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110–53 (121 Stat. 266; August 3, 2007), codified at 6 U.S.C. 1207.

Voluntary Collection. Consistent with these requirements, TSA produced Pipeline Security Guidelines in December 2010, and April 2011, with an update published in April 2021. As the lead federal agency for pipeline security and consistent with its statutory authorities, TSA requests to be notified of all (1) incidents that may indicate a deliberate attempt to disrupt pipeline operations; and (2) activities that could be precursors to such an attempt.

Mandatory collection. In May 2021 in response to a ransomware attack on the Colonial Pipeline Company, TSA issued a security directive series with requirements for owner/operators of hazardous liquid and natural gas pipelines and liquefied natural gas facilities that TSA designated as critical. The security directive series included two mandatory information collections, reporting pipeline security incidents, and providing contact information for the cybersecurity coordinator(s) and alternate(s).

Estimated Annual Respondents: 100.

Estimated Annual Burden Hours: 726.²

Dated: May 28, 2025.

² Since the publication of 60-day notice, TSA adjusted the estimated annual burden from 4,109 hours to 726 hours as a result of the decrease in time to submit incidents to CISA.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is

seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Moving to Work Expansion, Asset Building Cohort Evaluation.

OMB Approval Number: 2528–0345.

Type of Request: Revision of a currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use: HUD contracted with Abt Global and its partner MEF Associates to evaluate the Moving to Work Asset Building Cohort (hereinafter “Asset Building Cohort”). This 60-day Notice informs the public of intent to collect data from HUD-assisted households at Public Housing Agencies (PHAs) participating in the Moving to Work, Asset Building Cohort.

Nine of the 17 PHAs in the Asset Building Cohort implemented an opt-out savings program. (See PIH Notice 2022–11 for information on the opt-out savings account program.)

OMB approved data collection for the first phase of the evaluation of the Moving to Work Asset Building Cohort on January 10, 2024, under OMB Control Number 2528–0345. This 60-Day Notice seeks approval for the second phase of data collection, which

includes a new instrument—the Opt-Out Saving Account Household Survey.

The first phase of the Asset Building Cohort evaluation was guided by a few overarching questions: (1) What programs are PHAs implementing? What are the characteristics of the group of residents participating in the programs? (2) How do participants understand the programs? And what do the programs mean for them personally? The programs will run for up to two years. This information collection request covers the second phase, which is guided by the following questions: (1) What is the impact of the opt-out savings program on assisted households’ ability to build and maintain an emergency savings fund that helps them avoid material hardships?” (2) What is the impact of the program on their ability to use traditional financial products and decrease reliance on high-cost alternative financial products?”

This information collection request seeks approval for data collection needed to answer second phase questions. Consequently, it requests approval to collect data from a random sample of HUD-assisted households at PHAs implementing the opt-out savings account program, including randomly selected program participants and randomly selected non-participants (the

control group) (n = 1,100). The evaluator will contact selected residents and ask them to participate in a 30-minute survey about financial goals and aspirations, and experiences with banking, savings, and credit. Participants assigned to the treatment group will be asked a few additional questions about their experiences with the program. Prior to the survey, the participants will receive an advance letter notifying them of the upcoming data collection.

Respondents: Adults who are assisted by PHAs participating in the Asset Building Cohort.

Estimated Number of Respondents: Up to 1,100 respondents (555 respondents from the treatment group and 545 respondents from the control group).

Estimated Number of Responses: 1,100.

Frequency of Response: Once.

Average Hours per Response: The advance letter for the opt-out savings study survey will take .08 hours (less than 5 minutes) to read and consider. The survey will take about 0.5 hours (30 minutes) to complete. Average total response time per respondent will be 35 minutes.

Total Estimated Burdens:

Information collection	Number of respondents	Frequency of response	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Survey Advance Letter	1,100	1	.08	88	\$11.89	\$1,046
Survey	1,100	1	.5	550	11.89	6,540
Total	638	7,586

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comments in response to these questions.

C. Authority

Section 2 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507.
