

resources in the sanctuary from known, emerging, and future unknown threats.

9. *Cultural Resources and Maritime Heritage*: To identify, protect, and raise awareness of the maritime cultural, historical, and archeological resources within the sanctuary, this action plan proposes to improve the sanctuary's collaborative partnership with members of the Chumash community, as well as inventory and monitor historic shipwreck and aircraft wreck sites.

10. *Operations and Administration*: This action plan addresses the necessary operational and administrative activities required for implementing an effective program, including staffing, infrastructure needs, and operational improvements.

IV. National Environmental Policy Act (NEPA) Compliance

As required under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*), NOAA has prepared a DEA to evaluate the potential impacts on the human environment of implementing NOAA's proposed action. The proposed action is to update NOAA's management activities conducted within CINMS that relate to research, monitoring, education, outreach, community engagement, and resource protection. The proposed management activities include revising the sanctuary management plan and implementing routine field activities and existing sanctuary regulations. No significant impacts to resources and the human environment are expected to result from this proposed action. Accordingly, under NEPA, an Environmental Assessment is the appropriate document to analyze the potential impacts of this action. Following the close of the public comment period and the satisfaction of consultation requirements under any applicable natural and cultural resource statutes, NOAA will finalize its NEPA analysis and prepare a final NEPA document and decision document.

NOAA is seeking public comment on the DMP and DEA, which are available at <https://channelislands.noaa.gov/manage/plan/revision.html> or may be obtained by contacting the individual listed under the heading **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION:

I. Abstract

NOAA Fisheries, Southeast Fisheries Science Center, annually collects socioeconomic data from commercial fishermen in the Gulf of Mexico and South Atlantic shrimp fisheries who hold one or more permits for harvesting shrimp from federal waters (U.S. Exclusive Economic Zone). A collection of economic information from fishers affected by the management of federal commercial fisheries is needed to ensure that national goals, objectives, and requirements of the Magnuson-Stevens Fishery Conservation and Management Act (MFCMA) and other laws are met. The data is needed to conduct socioeconomic analyses in support of management of the shrimp fishery and to satisfy legal requirements. Information about revenues, variable and fixed costs, capital investment and other socioeconomic information is collected from a random sample of permit holders. The data will be used to assess how fishermen will be impacted by and respond to federal regulation likely to be considered by fishery managers. No changes are requested with this renewal request.

II. Method of Collection

The information will be collected on paper using a mail survey.

III. Data

OMB Control Number: 0648-0591.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit organizations; individuals or households.

Estimated Number of Respondents: 650 permit holders.

Estimated Time per Response: 45 minutes.

Estimated Total Annual Burden Hours: 488 hours.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
