SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review and, as appropriate, object to operating permits proposed by state permitting authorities under title V of the Act, 42 U.S.C. 7661-7661f. Section 505(b)(2) of the Act and 40 CFR 70.8(d) authorize any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of EPA's 45-day review period if EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

GCLPI submitted a petition on behalf of the Sierra Club to the Administrator on August 22, 2001, requesting that EPA object to a state title V operating permit issued by EPD to Dougherty. The Petitioner maintains that the Dougherty permit is inconsistent with the Act because of: (1) Inadequate reporting requirements related to monitoring; (2) the permit's apparent limitation of enforcement authority; (3) inadequate public notice procedures; and (4) the permit's apparent limitation of credible evidence.

On July 3, 2002, the Administrator issued an order denying this petition. The order explains the reasons behind EPA's conclusion that the Petitioner has failed to demonstrate that the Dougherty permit is not in compliance with the requirements of the Act on the grounds raised.

Dated: July 19, 2002.

A. Stanley Meiburg,

Deputy Regional Administrator, Region 4.
