Federal Aviation Administration

Random Drug and Alcohol Testing Percentage Rates of Covered Aviation Employees for the Period of January 1, 2023, Through December 31, 2023

AGENCY: Federal Aviation Administration (FAA), DOT. **ACTION:** Notice.

SUMMARY: The FAA has determined that the minimum random drug and alcohol testing percentage rates for the period January 1, 2023, through December 31, 2023, will remain at 25 percent of safety-sensitive employees for random drug testing and 10 percent of safety-sensitive employees for random alcohol testing.

FOR FURTHER INFORMATION CONTACT: Ms. Vicky Dunne, Federal Aviation Administration, Office of Aerospace Medicine, Drug Abatement Division, Program Policy Branch; Email *drugabatement@faa.gov*; Telephone (202) 267–8442.

Discussion: Pursuant to 14 CFR 120.109(b), the FAA Administrator's decision on whether to change the minimum annual random drug testing rate is based on the reported random drug test positive rate for the entire aviation industry. If the reported random drug test positive rate is less than 1.00%, the Administrator may continue the minimum random drug testing rate at 25%. In 2021, the random drug test positive rate was 0.728%. Therefore, the minimum random drug testing rate will remain at 25% for calendar year 2023.

Similarly, 14 CFR 120.217(c), requires the decision on the minimum annual random alcohol testing rate to be based on the random alcohol test violation rate. If the violation rate remains less than 0.50%, the Administrator may continue the minimum random alcohol testing rate at 10%. In 2021, the random alcohol test violation rate was 0.114%. Therefore, the minimum random alcohol testing rate will remain at 10% for calendar year 2023.

SUPPLEMENTARY INFORMATION: If you have questions about how the annual random testing percentage rates are determined, please refer to the Code of Federal Regulations Title 14, section 120.109(b) (for drug testing), and 120.217(c) (for alcohol testing).

Issued in Washington, DC.

Title: Public Transportation Emergency Relief Program.

OMB Control Number: 2132–0575. Background: Since the authorization of the Public Transportation Emergency Relief Program in 2012, Congress has appropriated funds three times for transit agencies affected by disaster.

The first appropriation of funds for the program was in 2013 following Hurricane Sandy, for which the President declared a major disaster for areas of 12 States and the District of Columbia. Under the Disaster Relief Appropriations Act (Pub. L. 113–2), Congress provided \$10.9 billion for FTA's Emergency Relief Program for recovery, relief, and resilience efforts in the counties specified in the disaster declaration. Approximately \$10.0 billion remained available after implementation of the Balanced Budget and Emergency Deficit Control Act of 2011 (Pub. L. 112–25) and after intergovernmental transfers to other bureaus and offices within DOT. FTA has allocated the full amount in multiple tiers for response, recovery and rebuilding; for locally prioritized resilience projects, and for competitively selected resilience projects.

The second appropriation of funds for the Emergency Relief Program was in 2018 following Hurricanes Harvey, Irma, and Maria, for which the President declared major disasters in areas of Florida, Georgia, Louisiana, Puerto Rico, South Carolina, Texas, and the U.S. Virgin Islands. Under the Bipartisan Budget Act of 2018 (Pub. L. 115-123), Congress provided \$330 million for FTA's Emergency Relief Program for transit systems affected by Hurricanes Harvey, Irma, and Maria. On May 31, 2018 FTA allocated \$277.5 million for response, recovery, rebuilding, and resilience projects.

The third appropriation of funds for the Emergency Relief Program was in 2019. Under the Additional Supplemental Appropriations for Disaster Relief Act of 2019, Congress appropriated \$10.5 million for FTA's Emergency Relief Program for transit systems affected by major declared disasters occurring in calendar year 2018.

On March 13, 2020, FTA announced that expanded eligibility of federal assistance is available under FTA's Emergency Relief Program to help transit agencies respond to the coronavirus (COVID–19) in states where the Governor has declared an emergency. This includes allowing all transit providers, including those in large urban areas, to use federal formula funds for emergency-related capital and operating expenses, and raises the cap on the federal government's share of those expenses.

Respondents: States, local governmental authorities, Indian tribes and other FTA recipients impacted by Hurricane Sandy which affected mid-Atlantic and northeastern states in October 2012; Hurricane Harvey which affected areas of Texas and Louisiana in August 2017; and Hurricanes Irma and Maria which affected the southeastern states and the territories of the Puerto Rico and the U.S. Virgin Islands in September 2017, and by major declared disasters occurring in calendar year 2018.

Estimated Annual Number of Respondents: 26.

Estimated Total Annual Burden: 4,680 hours.

Frequency: Annually.

Deputy Associate Administrator, Office of Administration. [FR Doc. 2022–25205 Filed 11–17–22; 8:45 am] BILLING CODE 4910–57–P
