SUPPLEMENTARY INFORMATION:

I. Abstract

The owners of vessels that fish out of West Coast ports for highly migratory species such as tuna, billfish, and sharks are required to submit information about their fishing activities so that the National Marine Fisheries Service and the Pacific Fishery Management Council can monitor the fisheries and determine the effects and effectiveness of the Fishery Management Plan (FMP) for U.S. West Coast Fisheries for Highly Migratory Species (HMS). Catch and effort statistics from logbooks are essential for evaluating if the objectives of the FMP are being achieved and for evaluating the impacts of potential changes in management to respond to new information or new problems in the fisheries.
