SUPPLEMENTARY INFORMATION:

Title: Requirements for Derivatives Clearing Organizations (OMB Control No. 3038-0076). This is a request for a revision of a currently approved information collection.

Abstract: On July 13, 2023, the Commission published a Final Rule adopting amendments that included new information collection requirements. See Final Rule, *Governance Requirements for Derivatives Clearing Organizations*, 88 FR 44674 (Jul. 13, 2023). The revised rules require a DCO to create and maintain minutes of each Risk Management Committee (RMC) meeting and to maintain written policies and procedures to make certain that its RMC includes at least two clearing member representatives and, if applicable, at least two representatives of customers of clearing members. The revised rules also require a DCO to adopt written policies and procedures related to the formation and role of each risk advisory working group (RWG), and to include in those policies and procedures requirements for the DCO to document and provide to the RMC, at a minimum, a summary of the topics discussed and the main points raised during each meeting of the RWG.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On July 13, 2023, the Commission published in the **Federal Register** notice of the proposed revision of this information collection and provided 60 days for public comment on the proposed extension, 88 FR 44781 (“60-Day Notice”). The Commission received no relevant comments that addressed its PRA burden estimates.

Burden Statement: The Commission is revising its burden estimate for OMB control number 3038-0076 to account for the amendments described above. Specifically, the Commission believes that the burden under this clearance will increase because the 15 DCOs subject to these requirements will be required under § 39.24(b)(11) to create and maintain minutes of each RMC meeting, and under § 39.24(b)(12) to document and provide to the RMC, at a minimum, a summary of the topics discussed and the main points raised during each meeting of the RWG. The Commission estimates a DCO will spend an average of four hours creating minutes of each RMC meeting and four hours documenting a summary of the topics discussed and the main points

raised during each meeting of the RWG, which includes attending the meeting, taking notes, and putting the notes into the required format following the meeting. The Commission estimates that a DCO’s RMC and RWG will each need to hold an average of six meetings per year to satisfy the §§ 39.24(b)(11) and (12) requirements that a DCO’s RMC and RWG address all matters that could materially affect the risk profile of the DCO. Based upon the above, the estimated hour burden for this collection is calculated as follows:

Estimated number of respondents: 15.²

Estimated number of reports per respondent: 18.

Average number of hours per report: 4.

Estimated gross annual reporting burden: 1,080.

There are no capital costs or operating and maintenance costs associated with this collection.

(Authority: 44 U.S.C. 3501 *et seq.*)

Dated: October 17, 2023.

Robert Sidman,

Deputy Secretary of the Commission.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NCCC Team Leader Application

AGENCY: Corporation for National and Community Service.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Corporation for National and Community Service, operating as AmeriCorps, has submitted a public information collection request (ICR) entitled NCCC Team Leader Application for review and approval in accordance with the Paperwork Reduction Act.

² The Commission notes that while new § 39.24(d) provides that a DCO may satisfy the requirements of paragraphs (b)(11), (b)(12), (c)(1)(iv), and (c)(3) by having rules that permit it to clear only fully collateralized positions, such DCOs are included in the total estimated number of respondents because these DCOs would still be required to develop and disclose governance arrangements required by the other provisions of § 39.24. The Commission’s estimate is therefore conservative to the extent that these DCOs are not required to prepare and maintain minutes of each RMC meeting, and document and provide to the RMC, at a minimum, a summary of the topics discussed and the main points raised during each meeting of the RWG.

DATES: Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by November 20, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Copies of this ICR, with applicable supporting documentation, may be obtained by calling AmeriCorps, John Christman, at 202-606-3871 or by email to jchristman@americorps.gov.

SUPPLEMENTARY INFORMATION: The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CNCS, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions;
- Propose ways to enhance the quality, utility, and clarity of the information to be collected; and
- Propose ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Managed Aquifer Recharge Planning and Guidance Study; OMB Control Number 0710–MARP.

Needs and Uses: The survey will inform the development of a screening tool and other resources for USACE Districts to identify optimal sites for Managed Aquifer Recharge (MAR), which uses captured surface water to replenish groundwater. The Water Resources Development Act (WRDA) of 2016 provides authority for water supply conservation projects for drought resilience and water supply availability studies for water resources development (Sections 1116 and 1118, respectively). The WRDA of 2016 further requires USACE to consider natural and nature-based features, such as MAR, as potential solutions to address various challenges along with other measures. However, USACE has not developed a strategic framework for incorporating MAR into its operations. Furthermore,
