BILLING CODE P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (10-017)]

NASA Advisory Council; Space Operations Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the Space Operations Committee of the NASA Advisory Council.

DATES: Wednesday, February 17, 2010, 9 a.m.–12 p.m. EST.

ADDRESSES: NASA Headquarters, 300 E Street, SW., Washington, DC 20456, Room 2U22.

FOR FURTHER INFORMATION CONTACT: Mr. Jacob Keaton, NAC Space Operations Committee Executive Secretary, National Aeronautics and Space Administration Headquarters, Washington, DC 20546, 202/358-1507.

SUPPLEMENTARY INFORMATION: The agenda for the meeting includes the following topics:

—NASA Space Operations Mission Directorate Update

The meeting will be open to the public up to the seating capacity of the room. It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants. Visitors will need to show a valid picture identification such as a driver's license to enter the NASA Headquarters building (West Lobby—Visitor Control Center), and must state that they are attending the NASA Advisory Council Space Operation Committee meeting in Room 2U22. All non-U.S. citizens must fax a copy of their passport, and print or type their name, current address, citizenship,

company affiliation (if applicable) to include address, telephone number, and their place of birth, date of birth, U.S. visa information to include type, number, expiration date, U.S. Social Security Number (if applicable), and place and date of entry into the U.S., fax to Jacob Keaton, NASA Advisory Council Space Operations Executive Secretary at 202-358-2885 by no later than February 10, 2010. To expedite admittance, U.S. attendees can provide identifying information in advance by contacting Mr. Jacob Keaton via e-mail at *Jacob.keaton@nasa.gov* or by telephone at (202) 358-1507. Persons with disabilities who require assistance should indicate this.

Dated: January 29, 2010.

P. Diane Rausch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

BILLING CODE P

NUCLEAR REGULATORY COMMISSION

[NRC-2010-0031]

Draft Regulatory Guide: Issuance, Availability

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Issuance and Availability of Draft Regulatory Guide, DG-4017.

FOR FURTHER INFORMATION CONTACT:

Gregory Chapman, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: (301) 492-3106 or e-mail to *Gregory.Chapman@nrc.gov*.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The draft regulatory guide (DG), entitled, "Monitoring and Reporting Radioactive Materials in Liquid and Gaseous Effluents from Nuclear Fuel Cycle Facilities," is temporarily

identified by its task number, DG-4017, which should be mentioned in all related correspondence. DG-4017 is a proposed Revision 2 of Regulatory Guide 4.16, dated December 1985. This guide describes a method that the NRC staff considers acceptable for the development and implementation of effluent monitoring programs to be described in license applications and for monitoring and reporting effluent data by licensees. The guidance is applicable to nuclear fuel cycle facilities with the exception of uranium mining and milling facilities and nuclear power reactors. The NRC has developed other regulatory guides applicable to those facilities.

Title 10 of the Code of Federal Regulations (10 CFR), § 70.59, "Effluent Monitoring Reporting Requirements," requires licensees authorized to possess and use special nuclear material for processing and fuel fabrication, scrap recovery, conversion of uranium hexafluoride, or in a uranium enrichment facility to submit semi-annual reports to the NRC specifying the quantity of each of the principal radionuclides released to unrestricted areas and such other information as the NRC may require to estimate maximum potential annual radiation doses to the public resulting from effluent releases. As required by 10 CFR 40.65, "Effluent Monitoring Reporting Requirements," each licensee authorized to possess and use source material in the production of uranium hexafluoride must submit semiannual reports similar to those required by 10 CFR 70.59.

II. Further Information

The NRC staff is soliciting comments on DG-4017. Comments may be accompanied by relevant information or supporting data and should mention DG-4017 in the subject line. Comments submitted in writing or in electronic form will be made available to the public in their entirety through the NRC's Agencywide Documents Access and Management System (ADAMS).

Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed. You may submit
