

E. Steps Taken To Minimize Significant Impact on Small Entities, and Significant Alternatives Considered

19. The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): (a) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (b) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for small entities; (c) the use of performance, rather than design, standards; and (d) an exemption from coverage of the rule, or any part thereof, for small entities.

20. We are directed under law to describe any alternatives we consider, including alternatives not explicitly listed above. The Public Notice describes and seeks comment on a proposed limit on the number of new NCE FM applications that may be filed during the filing window described in the Public Notice. The proposed limit is intended to benefit all small NCE entities seeking to establish a new NCE FM service on a local or regional basis by preventing mass filings of speculative applications. The proposed limit should benefit applicants by expediting the review and processing of applications filed during the window. The proposed limit does not impose any significant compliance or reporting requirements because it would merely set a limit on the number of applications for new NCE FM authorizations that a party could file during the window. Accordingly, we are not aware of any alternatives that would benefit small entities. We encourage small entities to comment on the proposed limit described in the Public Notice.

Proposed Rule

For the reasons discussed in the preamble, the Federal Communications Commission proposes to amend 47 CFR part 73 as follows:

PART 73—RADIO BROADCAST SERVICES

■ 1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 155, 301, 303, 307, 309, 310, 334, 336, 339.

■ 2. Section 73.503 is amended by adding paragraph (g) to read as follows:

§ 73.503 Licensing requirements and service.

* * * * *

(g) *Application Limit.* An applicant may file no more than a total of ten applications in the 2021 NCE FM filing window. A party to an application filed in the 2021 NCE FM filing window may hold attributable interests, as defined in § 73.7000, in no more than a total of ten applications filed in the window. If it is determined that any party to an application has an attributable interest in more than ten applications, the Media Bureau will retain the ten applications that were filed first—based on the date of application receipt—and dismiss all other applications.

SUPPLEMENTARY INFORMATION:

I. Regulatory Process

Rules, regulations and standards issued by the Board are codified at 48 CFR Chapter 99. Pursuant to 41 U.S.C. 1502(c), the Board, prior to the establishment of any new or revised CAS, is required to complete a prescribed rulemaking process. The process generally consists of the following four steps:

1. Consult with interested persons concerning the advantages, disadvantages and improvements anticipated in the pricing and administration of Government contracts as a result of the adoption of a proposed standard.
2. Promulgate an Advance Notice of Proposed Rulemaking (ANPRM).
3. Promulgate a Notice of Proposed Rulemaking (NPRM).
4. Promulgate a Final Rule.

II. Background and Summary

The Board is releasing an ANPRM addressing how CAS might be modified to conform to the changes to GAAP that occurred after a related CAS was promulgated. In accordance with 41 U.S.C. 1502(c), the Board is required to consult with interested persons

concerning the advantages, disadvantages, and improvements anticipated in the pricing and administration of government contracts as a result of the adoption of a proposed standard prior to the promulgation of any new or revised CAS.

On March 13, 2019 (84 FR 9143), the Board published a SDP to solicit information and viewpoints on how to implement the Board's statutory requirement to review and conform CAS to GAAP to the maximum extent practicable. Among other things, the SDP asked commenters what recommended actions, if any, the Board should take regarding the changes in GAAP for operating revenue and lease accounting rules that occurred after CAS was promulgated. Three respondents urged the Board to give these issues the highest priority in the CAS-GAAP conformance initiative. They were concerned that if recent changes in GAAP are inconsistent with CAS, there may be inadvertent CAS violations, confusion over CAS requirements, inconsistent treatment among contractors, and additional costs to maintain separate accounting practices for GAAP and CAS.

The Board appreciates these comments and recognizes the need to take timely action to resolve the potential confusion on the interpretation of CAS as a result of changes in GAAP addressing operating revenue and lease accounting rules. Accordingly, this ANPRM requests public comment on proposed revisions that are being considered to (i) align CAS with GAAP on the handling of operating revenue and (ii) clarify CAS definitions to make clear that GAAP changes on lease accounting are not recognized for CAS purposes.

III. Public Comments

Interested persons are invited to provide input on the ANPRM. All comments must be in writing and submitted as instructed in the ADDRESSES section.

In commenting on the ANPRM, the Board encourages respondents, and especially entities that are covered by CAS, to discuss what, if any, burdens they believe would be added or reduced if the ANPRM was finalized as described below. Specifically, the Board seeks to understand what, if any, burden is created or reduced for contractors by relying solely on the GAAP definition of operating revenue and deleting the more detailed CAS definition. Similarly, the Board welcomes feedback regarding any burden that is expected to be created or reduced for contractors by making clear that property formerly classified as

operating leases and reclassified as right-of-use assets should be excluded from treatment as intangible capital assets and tangible capital assets for CAS.

IV. Paperwork Reduction Act

The Paperwork Reduction Act, Public Law 96-511, does not apply to this draft proposed rule, because this rule imposes no paperwork burden on offerors, affected contractors and subcontractors, or members of the public which requires the approval of OMB under 44 U.S.C. 3501, *et seq.*

V. Executive Orders 12866 and 13563 and the Regulatory Flexibility Act

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. Because the affected contractors and subcontractors are those who are already subject to CAS and the draft proposed rule would seek to rely more heavily on GAAP, which these contractors are using in their commercial transactions, the economic impact of this draft proposed rule on contractors and subcontractors is expected to be minor. Accordingly, this is not a significant regulatory action and, therefore, is not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993.

Michael E. Wooten,

Administrator for Federal Procurement Policy, and Chair, Cost Accounting Standards Board.
