Petitioner: Air Canada.

Section of 14 CFR Affected: 14 CFR 93.123(a).

Air Canada requests an exemption from the limit for DCA set forth in § 93.123(a), to permit the FAA to create commuter slots during certain limited hours for Air Canada's use. The proposed commuter slots would replace expiring slots currently held by Air Canada and used to provide service from DCA to points in Canada. Specifically, Air Canada desires one daily slot during each of the 1100, 1200, 1800, 1900, 2000 and 2100 hours. The proposed exemption would permit Air Canada to continue operating its existing services.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for importation into and sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J.K. Technologies, LLC ("JK"), of Baltimore, Maryland (Registered Importer 90-006) has petitioned NHTSA to decide whether nonconforming 1991 Porsche 911 series passenger cars are eligible for importation into the United States. The vehicles which JK believes are substantially similar are 1991 Porsche 911 series passenger cars that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

The petitioner states that it compared non-U.S. certified 1991 Porsche 911 series passenger cars to their U.S.-certified counterparts, and found the vehicles to be substantially similar with
