DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

November 22, 2016.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are required regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including

the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by December 28, 2016 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725-17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Farm Service Agency

Title: Application for Payment of Amounts Due Persons Who Have Died, Disappeared or Declared Incompetent.

OMB Control Number: 0560-0026.

Summary of Collection: Representatives or survivors of persons who die, disappear, or are declared incompetent must be afforded a method of obtaining any payment intended for the person. 7 CFR 707 provides that form, FSA-325, be used as the form of application for person desiring to claim such payments. It is necessary to collect information recorded on FSA-325 in order to determine whether representatives or survivors of a person are entitled to receive payments earned by a person who dies, disappears, or is declared incompetent before receiving the payments due.

Need and Use of the Information: FSA will collect information to determine if the survivors have rights to the existing payments or to the unpaid portions of the person's payments. Survivors must show proof of death, disappearance, or incompetency.

Description of Respondents: Individuals or households.

Number of Respondents: 2,000.

Frequency of Responses: Reporting: Other (when necessary).

Total Burden Hours: 3,000.

Food and Nutrition Service

Title: Review of Child Nutrition Data & Analysis for Program Management.

OMB Control Number: 0584-NEW.

Summary of Collection: The Richard B. Russell National School Lunch Act of 1946 (42 U.S.C. 1751 *et seq.*), and the Child Nutrition Act of 1966 (42 U.S.C. 1771 *et seq.*) provide the legislative authority for the Food and Nutrition Service (FNS) to administer the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). These programs provide Federal financial assistance and USDA Foods to public and non-profit private schools and residential childcare institutions to facilitate serving meals that meet nutritional standards. In accordance with Federal regulations, School Food Authorities (SFA) collect a range of required and reported basic data elements that the States and FNS use to monitor program reach, efficiency, and implementation, but they also collect additional data, which the SFAs need to manage their own operations. SFAs and States have migrated from paper-based processes to Management Information Systems (MIS) of varying levels of sophistication for the management of their data. FNS is conducting the Review of Child Nutrition Data and Analysis for Program Management Study to document the current status of the SFAs' and the State's NSLP/SBP MIS.

Need and Use of the Information: The data collected from this voluntary study will be used to evaluate the available data elements that State agencies and SFAs collect for the operation of the NSLP and SBP. FNS will use the results of this study to identify specific data elements that could improve and streamline reporting to FNS to improve program oversight. The information gathered from the study will also be used to provide technical assistance to State agencies and SFAs and to develop MIS best practices.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 4,382.

Frequency of Responses: Reporting: Other (once).
Total Burden Hours: 2,712.

SUPPLEMENTARY INFORMATION:

Title: Aquaculture Surveys.

OMB Control Number: 0535-0150.

Expiration Date: June 30, 2017.

Type of Request: Intent to seek approval to revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue state and national estimates of crop and livestock production, prices, and disposition. The Aquaculture Surveys program produces estimates at the national level on both trout and catfish. Survey results are used by government agencies and others in planning farm programs.

The trout survey includes inventory counts, sales (dollars, pounds, and quantities), percent of product sold by outlet at the point of first sale, number of fish raised for release into open waters, and losses. The catfish surveys include inventory counts, water surface acreage used for production, sales (dollars, pounds, and quantities), and losses.

- Twenty-five states are in the Trout Production Survey. In January, data are collected in the selected states that produce and either sell or distribute trout. State, federal, tribal, and other facilities where trout are raised for conservation, restoration, or recreational purposes are included in the survey.

- Nine states are in the Catfish Production Survey. Data are collected from farmers in January for inventory, water surface acreage, and previous year sales. In addition, farmers in the three major catfish producing states are surveyed in July for mid-year inventory and water surface acreage.

- The surveys conducted in Florida, Hawaii, and Pennsylvania are conducted under cooperative agreements with each of these states.

- All of the surveys conducted under this approval will have voluntary reporting, with the exception of the Pennsylvania survey. The Pennsylvania State Government requires producers to respond to this survey.

The Catfish Feed Deliveries and Catfish Processing surveys that are present in the current information collection were discontinued due to budget sequestration in 2013. The information that was collected by these two surveys is now being collected and published by the Catfish Institute in their bimonthly publication *Catfish Journal*.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food
