## ELECTION ASSISTANCE COMMISSION

### Establishment of Local Leadership Council

**AGENCY**: U.S. Election Assistance Commission (EAC).

**ACTION**: Notice of establishment of the Local Leadership Council.

**SUMMARY**: Pursuant to the Federal Advisory Committee Act, as amended (), the EAC announces the establishment of the Local Leadership Council ("Advisory Committee"). The Advisory Committee will advise the EAC on how best to fulfill the EAC's statutory duties as well as such other matters as the EAC determines. Duration of this advisory board is for two years unless renewed by the EAC.

**FOR FURTHER INFORMATION CONTACT**: Kristen Muthig, EAC Director of Communications ([kmuthig@eac.gov](mailto:kmuthig@eac.gov)).

### SUPPLEMENTARY INFORMATION:

#### I. Background and Authority

The Local Leadership Council is established under agency authority pursuant to and in accordance with the provisions of the Federal Advisory Committee Act, as amended (5 U.S.C. App. 2). The Advisory Committee is governed by the Federal Advisory Committee Act, which sets forth standards for the formation and use of advisory committees. The Advisory Committee shall advise the EAC on how best to fulfill the EAC's statutory duties set forth in 52 U.S.C. 20922 as well as such other matters as the EAC determines. It shall provide a relevant and comprehensive source of expert, unbiased analysis and recommendations to the EAC on local election administration topics to include but are not limited to voter registration and registration database maintenance, voting system user practices, ballot administration (programming, printing, and logistics), processing, accounting, canvassing, chain of custody, certifying results, and auditing.

#### II. Structure

The Local Leadership Council shall consist of 100 members. The Election Assistance Commission shall appoint two (2) members from each state after

soliciting nominations from each state's election official professional association. Upon appointment, Advisory Committee members must be serving or have previously served in a leadership role in a state election official professional association.

Elections in the United States are ultimately administered by local election officials operating under election laws and procedures that often differ from state to state. By appointing two members from each state, members of the Advisory Committee will be chosen in a way that ensures geographic diversity, objectivity, and balance as well as encompass the full spectrum of election administration expertise throughout the United States. Local election officials are impacted by all of the EAC's statutory duties set forth in 52 U.S.C. 20922. The Advisory Committee's guidance and recommendations will be key to the ongoing success of the EAC's mission and programs.

Members shall be invited to serve for a term of 2 years and may serve consecutive terms. As necessary, subcommittees may be established by the EAC. The Committee will meet a minimum of once a year for the purposes of advising the EAC.

### III. Compensation

**FOR FURTHER INFORMATION CONTACT:**

Ellen Brown may be reached by email at [DataClearance@FERC.gov](mailto:DataClearance@FERC.gov), telephone at (202) 502-8663.

**SUPPLEMENTARY INFORMATION:**

*Title:* FERC-537 (Gas Pipeline Certificates: Construction, Acquisition, and Abandonment).

*OMB Control No.:* 1902-0060.

*Type of Request:* Three-year extension of the FERC-537 information collection requirements with no changes to the reporting requirements.

*Abstract:* The FERC-537 information collection requires natural gas companies to file information with FERC in order for the Commission to determine if the requested certificate should be authorized. Section 7 of the Natural Gas Act<sup>1</sup> requires natural gas companies to obtain Commission approval before constructing, extending, or abandoning facilities or service. The Commission implements section 7 primarily under regulations at 18 CFR part 157, subpart A. In addition, some regulations at 18 CFR part 284 are involved.

When the Commission grants a request to construct or extend pipeline facilities or service, it issues a certificate of public convenience and necessity.

The data generally required to be submitted in a certificate filing consists of identification of the company and responsible officials, factors considered in the location of the facilities and the impact on the area for environmental considerations. Also, to be submitted are the following, as applicable to the specific request:

- Flow diagrams showing the design capacity for engineering design verification and safety determination;
- Cost of proposed facilities, plans for financing, and estimated revenues and expenses related to the proposed facility for accounting and financial evaluation; or
- Existing and proposed storage capacity and pressures and reservoir engineering studies for requests to increase storage capacity.

Applications for an order authorizing abandonment of facilities or service must contain a statement providing in detail the reasons for the requested abandonment and must contain exhibits listed at 18 CFR 157.18, as well as an affidavit showing the consent of existing customers. With some exceptions, such applications also must include an environmental report.

Applicants filing in accordance with 18 CFR part 157, subpart A (either for a certificate or for abandonment) generally must make a good-faith effort to provide notice of the application to all affected landowners, towns, communities, and government agencies.

Certain self-implementing construction and abandonment programs do not require the filing of applications. However, those types of programs do require the filing of annual reports, so many less significant actions can be reported in a single filing/response and less detail would be required. Additionally, requests for an increase of pipeline capacity must include a statement that demonstrates compliance with the Commission's Certificate Policy Statement by making a showing that the cost of the expansion will not be subsidized by existing customers and that there will not be adverse economic impacts to existing customers, competing pipelines or their customers, nor to landowners and to surrounding communities.

The Commission reviews and analyses the information filed under the regulations subject to FERC-537 to determine whether to approve or deny the requested authorization. If the Commission failed to collect these data, it would lose its ability to review relevant information to determine whether the requested certificate should be authorized.

*Type of Respondents:* Jurisdictional natural gas companies.

*Estimate of Annual Burden:*<sup>2</sup> The Commission estimates the annual public reporting burden for the information collection as:

<sup>2</sup> Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. Refer to 5 CFR 1320.3 for additional information.

<sup>3</sup> Changes to estimated number of respondents were based on average number of respondents over the past three years.

<sup>4</sup> The estimates for cost per response are derived using the following formula: Average Burden Hours per Response \* \$83.00/hour = Average cost/response. The figure is the 2021 FERC average hourly cost (for wages and benefits) of \$83.00 (and an average annual salary of \$172,329/year). Commission staff is using the FERC average salary because we consider any reporting requirements completed in response to the FERC-537 to be compensated at rates similar to the work of FERC employees.

<sup>5</sup> Each of the figures in this column are rounded to the nearest dollar.

<sup>6</sup> A Certificate Abandonment Application would require waiver of the Commission's capacity release regulations in 18 CFR 284.8; therefore this activity is associated with Interstate Certificate and Abandonment Applications.
