SUPPLEMENTARY INFORMATION:

I. Abstract

The Business and Professional Classification Report survey (SQ-

CLASS(00)) collects information on new businesses to obtain proper industry classification for use in economic surveys conducted by the U.S. Census Bureau. The survey, conducted quarterly, samples businesses with newly assigned Employer Identification Numbers (EINs) from the Internal Revenue Service (IRS). Businesses can only be selected once for the survey. The SQ-CLASS(00) form collects minimum data about a business in such areas as: primary business activity, company structure, size, and business operations. This information is used to update the sampling frame for current business surveys, which ensures high quality economic estimates. Additionally by ensuring proper industry classification, this survey reduces respondent burden for the five-year Economic Census as businesses will be mailed five-year Economic Census forms specifically tailored to their industry.

There are a few changes since the last request was submitted for an OMB clearance request in 2007. An inquiry will be added to the form to determine not-for-profit status. This inquiry will be used to properly classify not-for-profit businesses. It will ensure that the proper current survey form is sent to the business if it is selected into a survey. Minimal changes will be made to the wording and organization of existing questions and instructions. Additionally, respondents will have the option to respond electronically via the Internet.

II. Method of Collection

Information is collected by Internet, mail, fax, and telephone follow-up.

III. Data

OMB Number: 0607-0189.

U.S. Census Bureau

Proposed Information Collection; Comment Request; Survey of Income and Program Participation (SIPP) Wave 8 of the 2008 Panel

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau conducts the SIPP, which is a household-based survey designed as a continuous series of national panels. New panels are introduced every few years with each panel usually having durations of one to four years. Respondents are interviewed at 4-month intervals or "waves" over the life of the panel. The survey is molded around a central "core" of labor force and income questions that remain fixed throughout the life of the panel. The core is supplemented with questions designed to address specific needs, such as obtaining information on household members' participation in government programs as well as prior labor force patterns of household members. These supplemental questions are included with the core and are referred to as "topical modules."

The SIPP represents a source of information for a wide variety of topics and allows information for separate topics to be integrated to form a single, unified database so that the interaction between tax, transfer, and other government and private policies can be examined. Government domestic-policy formulators depend heavily upon the SIPP information concerning the distribution of income received directly as money or indirectly as in-kind benefits and the effect of tax and transfer programs on this distribution. They also need improved and expanded data on the income and general economic and financial situation of the U.S. population. The SIPP has provided these kinds of data on a continuing basis since 1983 permitting levels of economic well-being and changes in these levels to be measured over time.

The 2008 panel is currently scheduled for 4 years and will include 13 waves of interviewing beginning September 2008. Approximately 65,300 households were selected for the 2008 panel, of which 42,032 households were interviewed. We estimate that each household contains 2.1 people, yielding 88,267 person-level interviews in Wave 1 and subsequent waves. Interviews take 30 minutes on average. Three waves will occur in the 2008 SIPP Panel during FY 2011. The total annual burden for 2008 Panel SIPP interviews would be 132,400 hours in FY 2011.

The topical modules for the 2008 Panel Wave 8 collect information about:

- Annual Income and Retirement Accounts
- Taxes
- Child Care
- Work Schedule

Wave 8 interviews will be conducted from January 1, 2011 through April 30, 2011.
