SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-XXXX.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Form Number: N/A.

Type of Review: New collection of Information.

Respondents: Individuals or households; business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Average Expected Number of Activities: 17.

Number of Respondents and Responses: 9,600 + 250,000 respondents; 9,600 + 250,000 responses.

Estimated Time per Response: .166 hours (10 minutes).

Frequency of Response: On time reporting requirement.

Obligation to Respond: Voluntary.

Total Annual Burden: 1,600 hours and 41,665 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: Undetermined at this time.

Nature and Extent of Confidentiality: Undetermined at this time.

Needs and Uses: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be

generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or change in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods of assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Federal Communications Commission.

Secretary, Office of the Secretary, Office of Managing Director.
