

Average Hours per Response: 0.5 hours/application survey, 0.75 hours/scoping and design survey, 0.75 hours/post-construction survey, and 1 hour/interview.

Estimated Total Annual Cost: The total estimated cost for the proposed data collection is \$108,082.

The Table below provides the estimated burden hours for the planned surveys and interviews. These estimates assume the maximum targeted number of study participants and are calculated as the time needed to complete individual surveys and interviews. To estimate the hourly cost per respondent, HUD used the average hourly

compensation (wages and benefits) of private workers who are in management, business, and financial occupations, according to the U.S. Bureau of Labor Statistics' Employer Costs for Employee Compensation Survey from June 2023 (<https://www.bls.gov/news.release/pdf/ecec.pdf>).
